RACING HUD + UI

A visual library for designing your own racing game.

Large screenshots. Focused component crops. Short visual notes. Every reference linked to its source.

33 FULL SCREENSHOTS **12 COMPONENT CROPS** **8 GAMES**

Forza Horizon 5 R01

Forza Motorsport R02

Gran Turismo 7 R04

Assetto Corsa Competizione R05

F1 24 R06

DiRT Rally 2.0 R07

Need for Speed Unbound R09

Mario Kart 8 Deluxe R10

Screenshots and artwork belong to their respective rights holders. Compiled for visual study.

Find the screen you need

Browse by screen purpose, then compare how each game gives the player a clear visual priority.

BY USE CASE

01 Race HUDs — 03-12
Position, lap timing, maps, gear, speed and race overlays.

02 Garage & selection — 13-18
Garages, character and vehicle choice, and circuit selection.

03 Tuning & strategy — 19-24
Parts, sliders, custom race settings and strategy graphics.

04 Menus & progression — 25-30
Mode menus, pause, calendar progression and online hubs.

05 Settings & accessibility — 31-35
Assist controls, accessibility, previews and selected rows.

Read the captures as still images. Notes describe visible layout, not animation or interaction. Versions and HUD settings vary; portfolio and annotated guide images are labelled. The enlarged-text example also shows a visible limitation.

Forza Horizon 5

Live race HUD - progress, position, route and speed

PUBLISHED CAPTURE

3840 x 2160 source pixels

LAYOUT Race progress and position occupy the upper corners; the route map and speed readout anchor the lower corners.

DETAIL A yellow skill-chain message sits near the top center while the driving view stays open around the car.

Forza Motorsport (2023)

Race HUD - chase camera

PUBLISHED CAPTURE

3840 x 2160 source pixels

LAYOUT Lap time and position sit above the left side; lap count and car level sit above the right. The middle stays visually open.

DETAIL The lower-right cluster groups gear, speed, revs and small vehicle-status symbols; the route map sits opposite.

PUBLISHED CAPTURE

Forza Motorsport (2023)

3840 x 2160 source pixels

Race HUD - cockpit camera

LAYOUT The same corner-based HUD coexists with a physical dashboard and mirror. Compare its placement against the chase-camera example.

DETAIL The floating gear and speed display remains distinct from the car's instruments. Study how much information is duplicated.

Gran Turismo 7

Race HUD with GT Sophy rivals

PUBLISHER CAPTURE

1920 x 1080 source pixels

LAYOUT Position and standings occupy the upper-left edge; a wide rear-view strip and a compact track map anchor the top.

DETAIL The lower cluster combines large digital speed and gear readouts with circular gauges, while rival labels and expressions appear above cars.

Polyphony Digital screenshot, via Ars Technica (28 March 2025)

Source page Original image

HISTORICAL PC UI

Assetto Corsa Competizione

1920 x 1080 source pixels

Cockpit HUD with pit-strategy MFD open

LAYOUT Timing and delta sit at the upper left, track feedback at the upper right, and a large gear readout anchors the lower right.

DETAIL The open pit-strategy panel uses a red selected row to organize dense fuel, tyre and repair controls.

SimRacingSetup beginner guide; PC screenshots from 2020

Source page Original image

F1 24

Race HUD and car settings

PUBLISHED CAPTURE

1393 x 784 source pixels

LAYOUT Lap and timing information occupy the upper corners; the track map, gear/speed readout and car settings occupy three separate lower zones.

DETAIL The gear numeral is much larger than the surrounding telemetry. A bright bar and highlighted settings row provide local emphasis.

DiRT Rally 2.0

Rallycross race HUD

PUBLISHED CAPTURE

1920 x 1080 source pixels

LAYOUT Lap and timing data sit upper left, the rear-view mirror sits top center, and a position/driver list sits upper right.

DETAIL A large gear numeral anchors the circular speed/rev cluster at lower right. The yellow joker-lap delta stands out within the white timing list.

DiRT Rally 2.0

Rally stage cockpit HUD

PUBLISHED CAPTURE

1920 x 1080 source pixels

LAYOUT A narrow vertical stage-progress bar hugs the left edge, below the elapsed stage time.

DETAIL A circular gear/speed cluster remains separate from the physical dashboard. Competitor timing occupies a compact upper-right stack.

Need for Speed Unbound

Live race HUD - leaderboard, timing, map and instruments

1920 x 1200 source pixels

LAYOUT Position and a compact portrait leaderboard fill the upper left; percentage, timer and lap count stack at the upper right.

DETAIL Circular map and instrument clusters anchor the lower corners, with a large speed numeral inside the tachometer.

Mario Kart 8 Deluxe

Race HUD - items, position and minimap

COMMUNITY CAPTURE

1280 x 720 source pixels

LAYOUT Item slots sit at the upper left, coins and lap count at the lower left, and a large yellow position numeral at the lower right.

DETAIL A pale route line and character portraits form the minimap. The HUD relies on a few large symbols instead of a speedometer.

Gran Turismo 7

Garage overview

1920 x 1080 source pixels

LAYOUT The car dominates the showroom; a narrow left column keeps specifications and condition indicators separate from the vehicle.

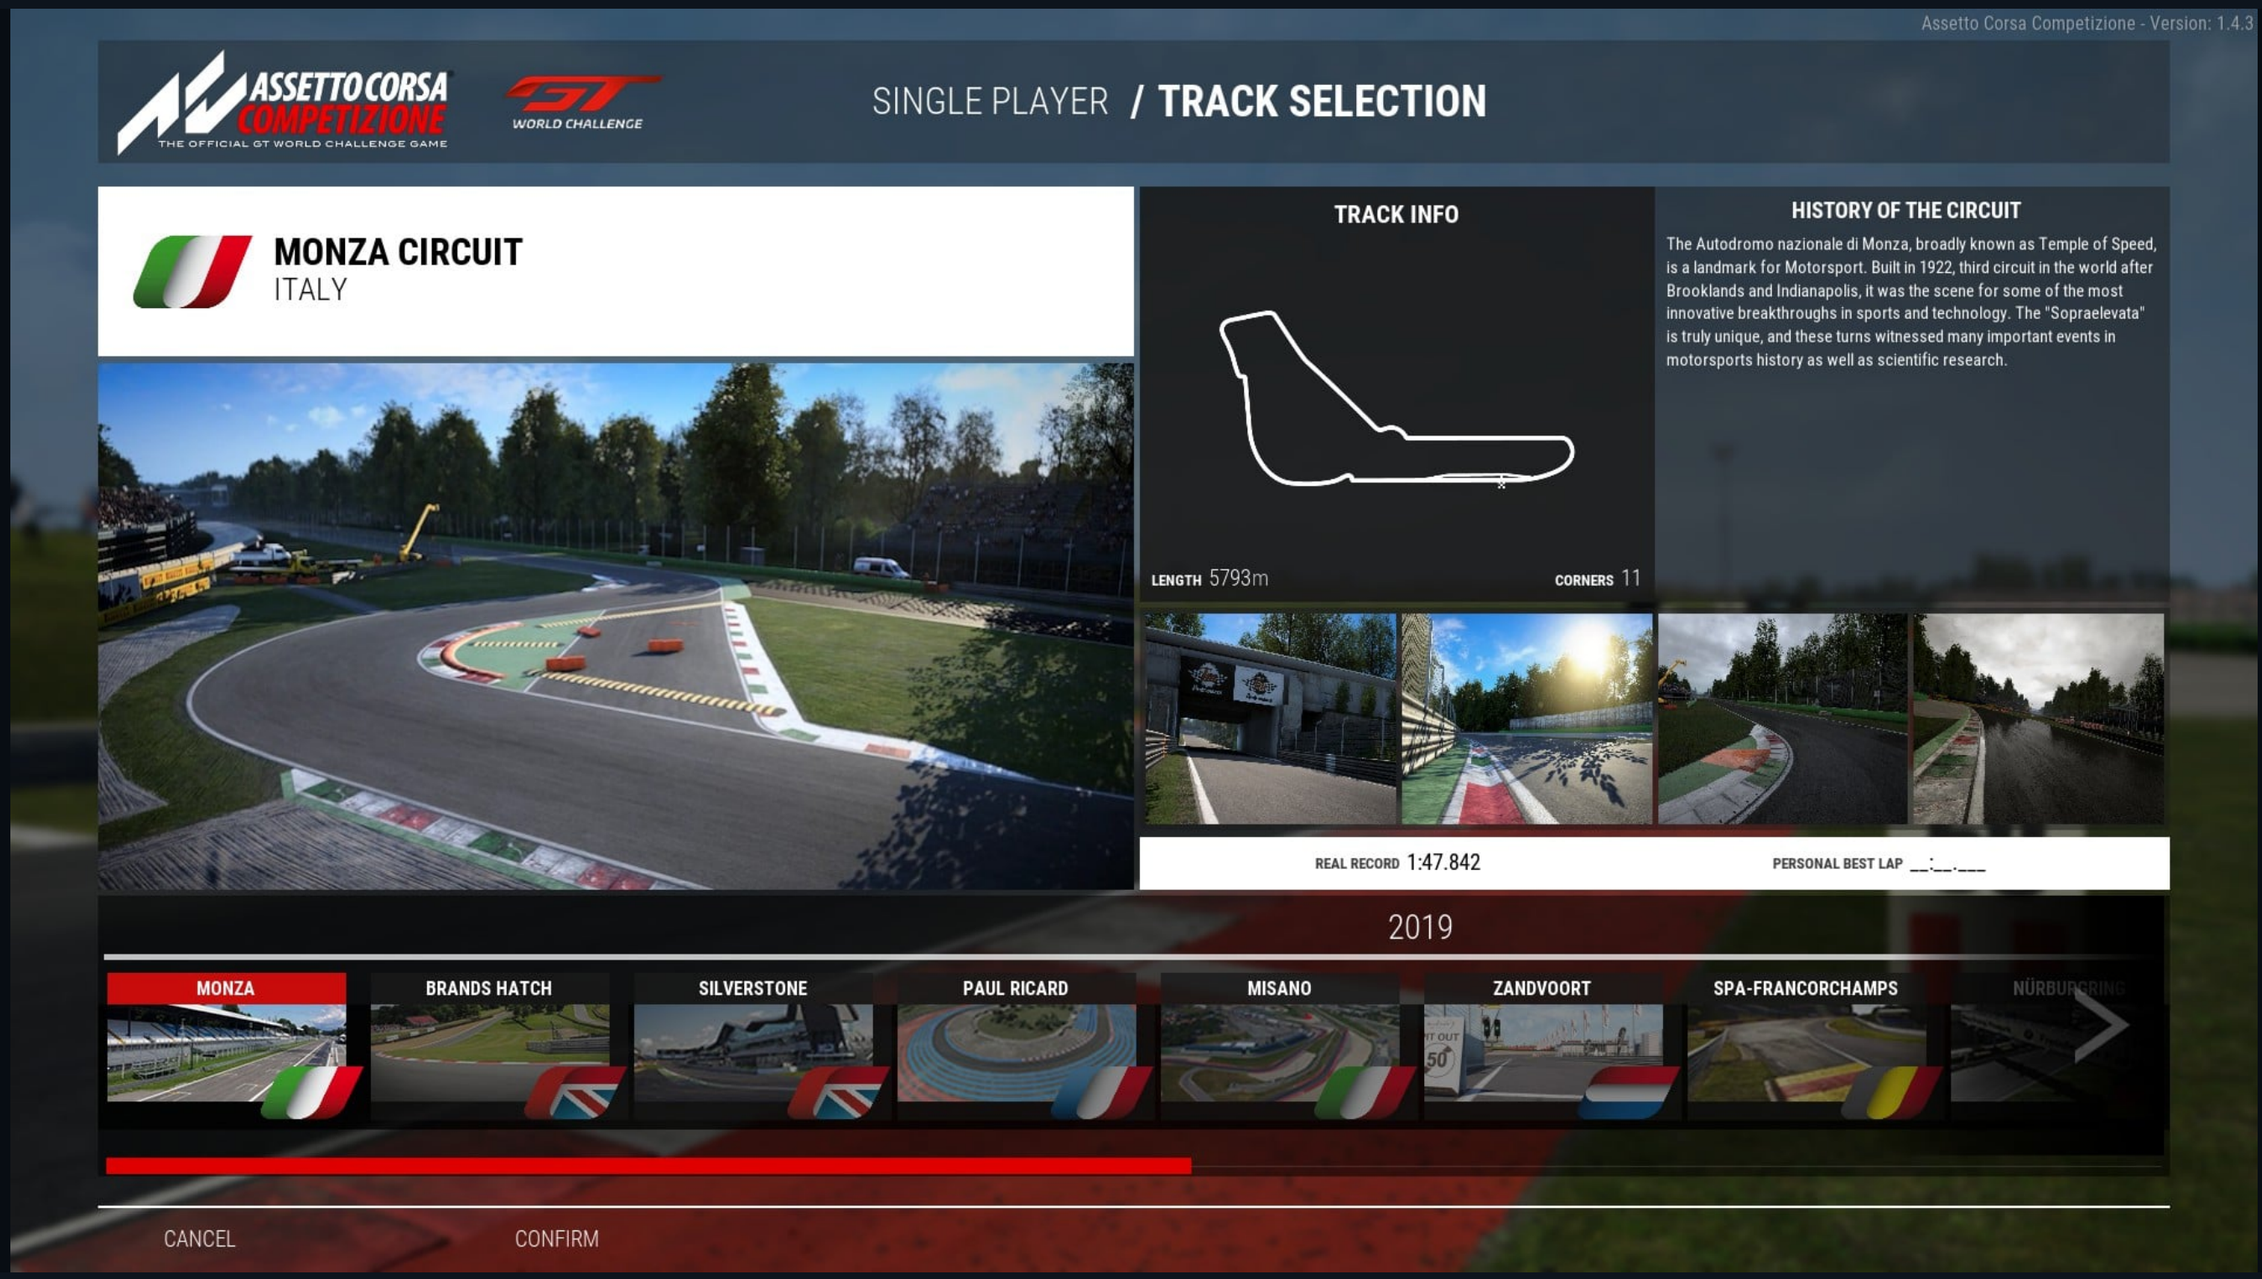
DETAIL A persistent top strip holds credits and car context, while a bottom row pairs large action icons with short labels.

HISTORICAL PC UI

Assetto Corsa Competizione

1920 x 1080 source pixels

Track selection - Monza



LAYOUT The selected circuit receives a large image, track outline and descriptive panel above a horizontal thumbnail rail.

DETAIL Red headers distinguish selection; the persistent breadcrumb and bottom Cancel/Confirm actions clarify the current step.

DiRT Rally 2.0

Team offers and vehicle specifications

2500 x 1327 source pixels

LAYOUT Car-and-driver cards form a horizontal strip, with the selected Volkswagen card outlined in white. Manufacturer symbols sit at the upper left of each card and driver names along the bottom.

DETAIL Vehicle Stats and Info tabs divide the lower section. Specifications use aligned labels and prominent numbers on a blurred, darkened backdrop.

Need for Speed Unbound

1920 x 1200 source pixels

Garage home - Play, Rides and Character navigation

LAYOUT Three short navigation choices sit low over a full-screen garage scene; Rides uses a solid white selection block.

DETAIL The car and character occupy the center and right, while tier, heat and money stay in a small upper-right cluster.

Mario Kart 8 Deluxe

OFFICIAL GUIDE

1920 x 1080 source pixels

Character selection - portrait grid

LAYOUT A regular portrait grid occupies the left half while a large character-and-kart preview occupies the right.

DETAIL A bright rectangular highlight marks Luigi. The blue footer carries the selected name between explicit Back and OK controls.

Mario Kart 8 Deluxe

Kart configuration - parts and performance

OFFICIAL GUIDE

1920 x 1080 source pixels

LAYOUT Three vertical part selectors sit beside five labelled performance bars. The selected glider has a bright yellow frame.

DETAIL The kart preview remains visible behind the stats; assist symbols and confirm/back hints occupy separate supporting areas.

Forza Horizon 5

Upgrade selection - intake parts

PUBLISHED CAPTURE

2048 x 1152 source pixels

LAYOUT A part grid shares the screen with a large car preview, a specification table and a power/torque graph.

DETAIL The active tile uses a thick magenta outline; the installed part also carries a yellow text label.

Forza Horizon 5

Differential tuning - sliders, metrics and explanation

PUBLISHED CAPTURE

2048 x 1152 source pixels

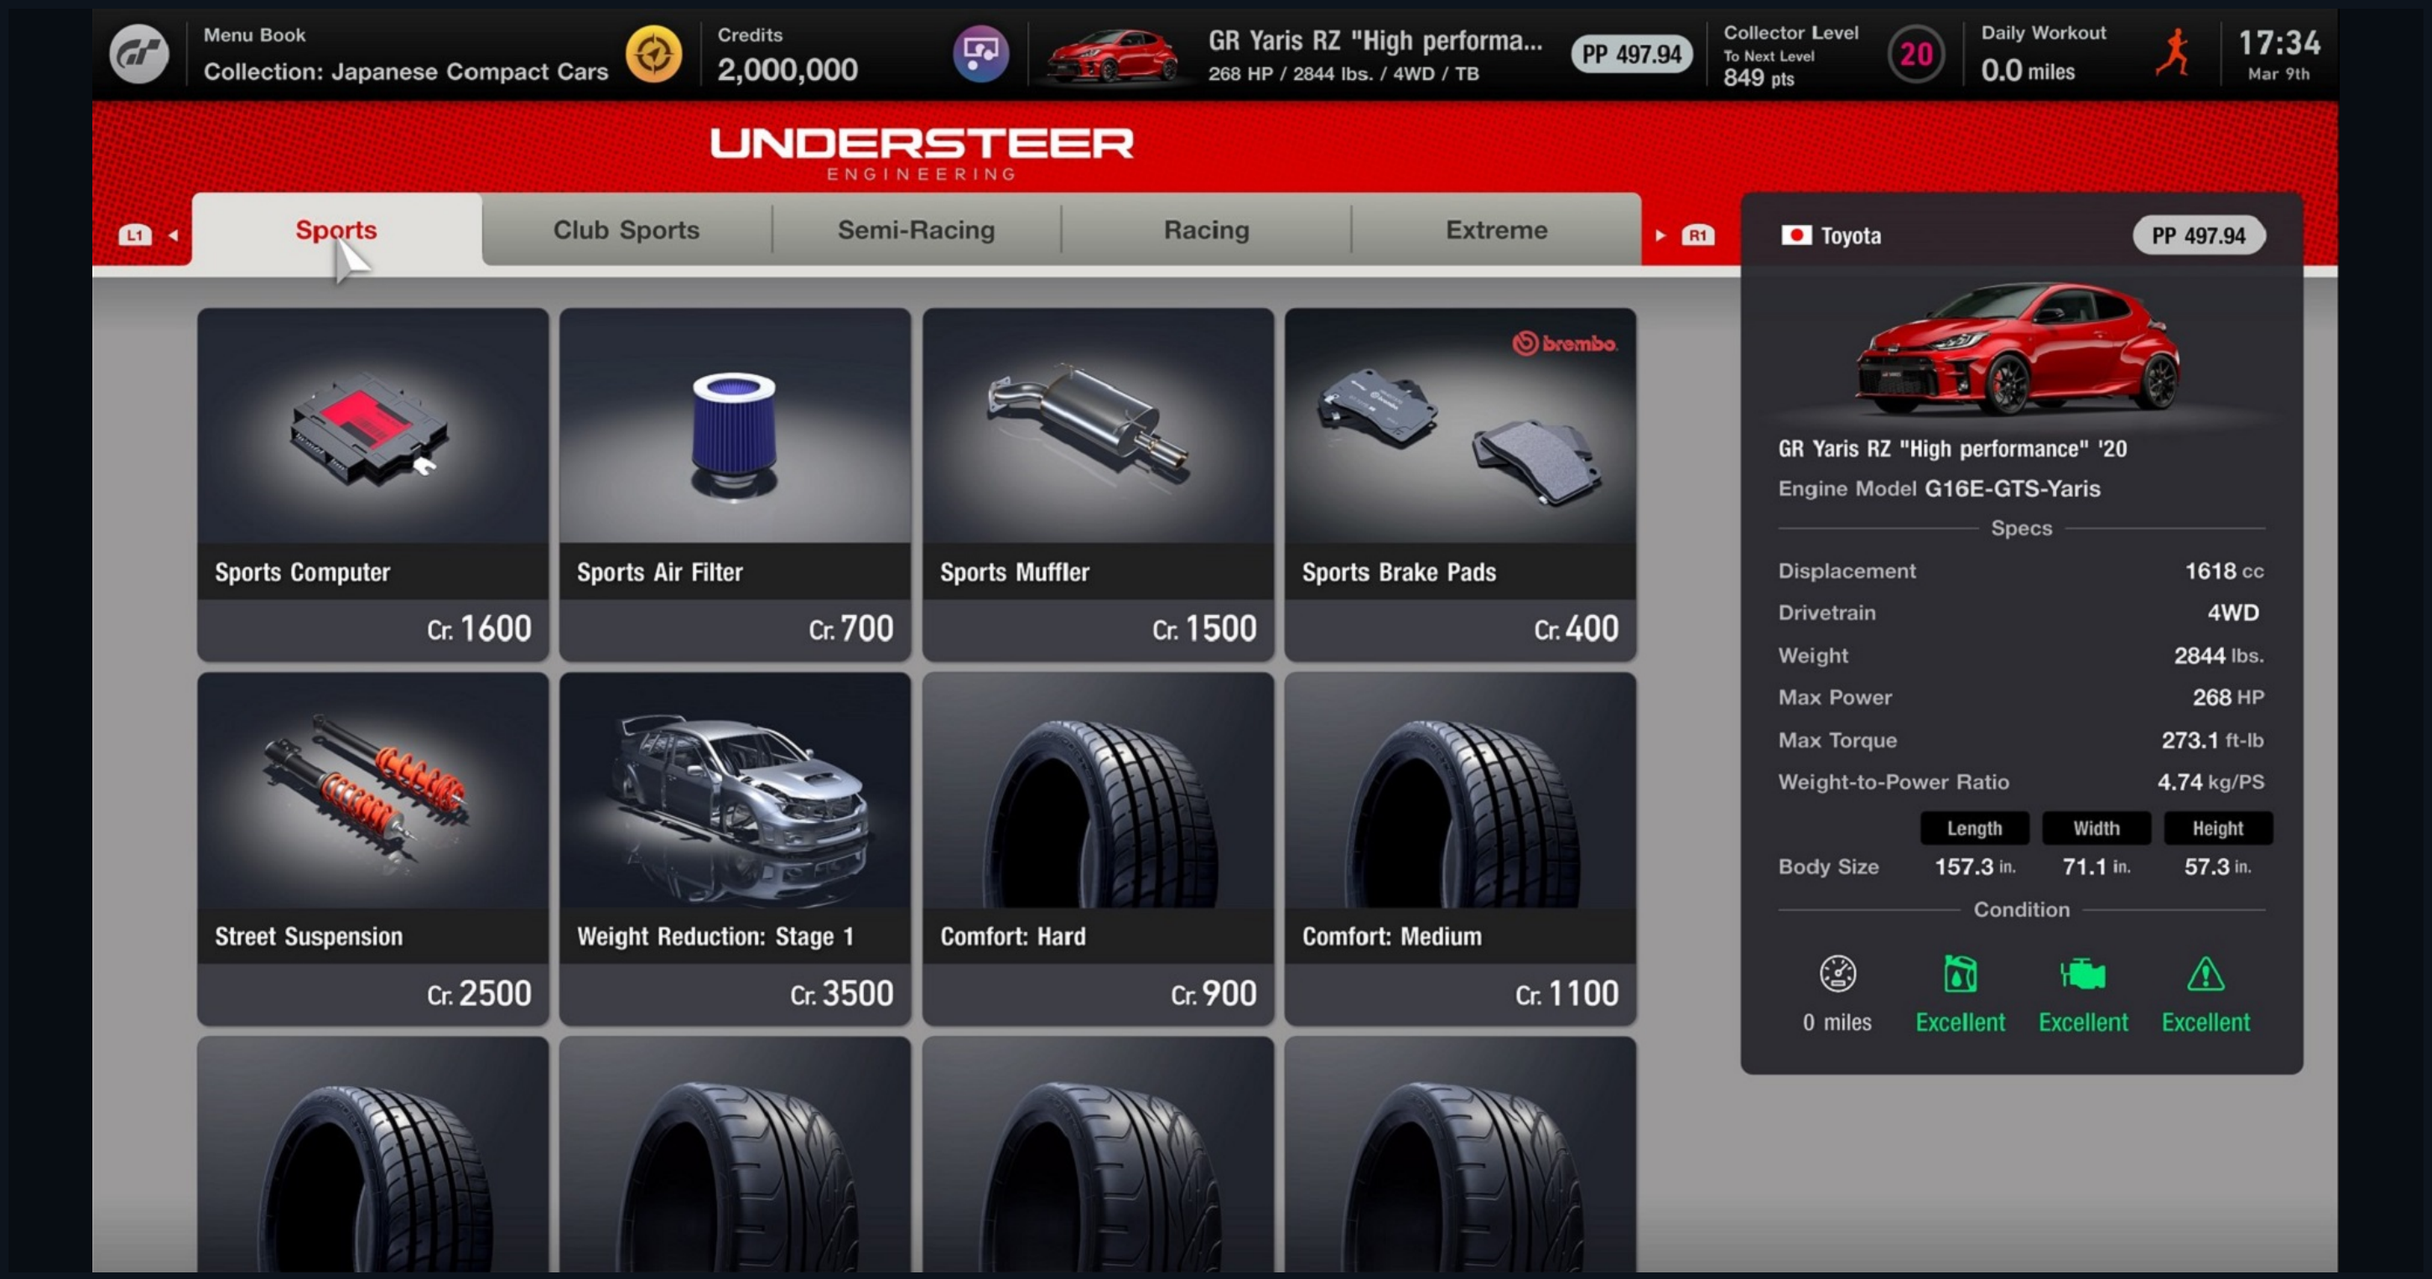
LAYOUT Performance metrics, adjustment sliders and explanatory text form three adjacent columns.

DETAIL Magenta marks both the selected Differential tab and the current adjustment row; controller hints remain along the bottom.

Gran Turismo 7

Tuning Shop parts grid

1920 x 1080 source pixels



LAYOUT Wide tabs separate upgrade tiers above a four-column grid of part images, names and prices.

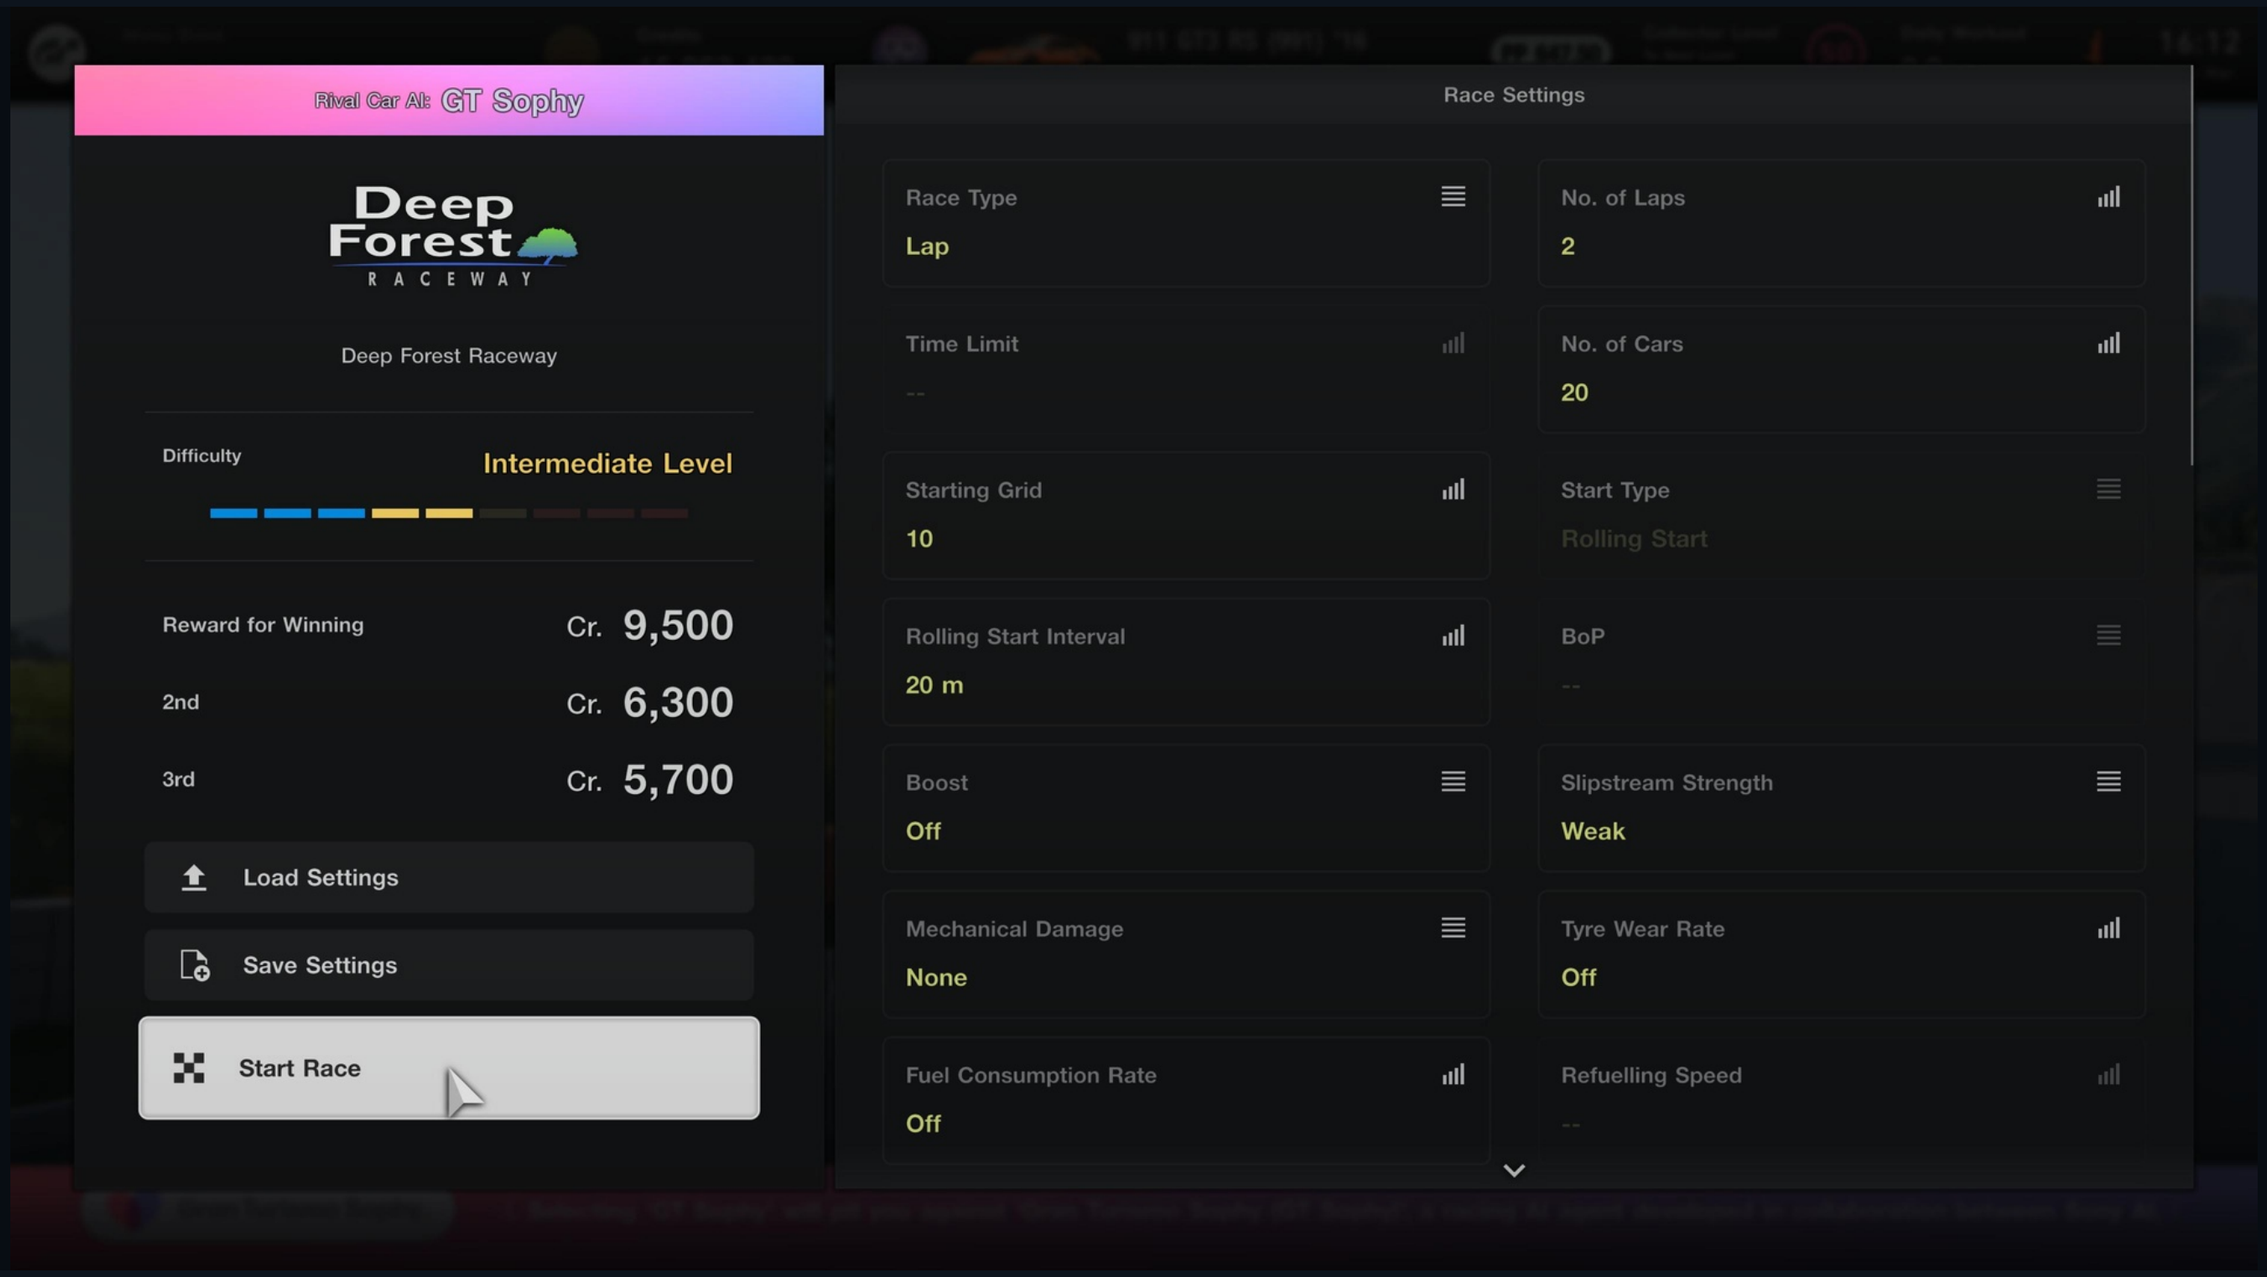
DETAIL A fixed right-hand car panel keeps performance and condition visible while browsing the catalog.

Gran Turismo 7

Custom Race settings

PUBLISHER CAPTURE

1920 x 1080 source pixels



LAYOUT A left summary panel groups track, difficulty and rewards, with the highlighted Start Race action at its base.

DETAIL A dense two-column settings grid uses outlined cells and muted labels; brighter values and disabled controls form a clear hierarchy.

Polyphony Digital screenshot, via Ars Technica (28 March 2025)

Source page Original image

F1 24

Custom setup - tyre pressure

PUBLISHED CAPTURE

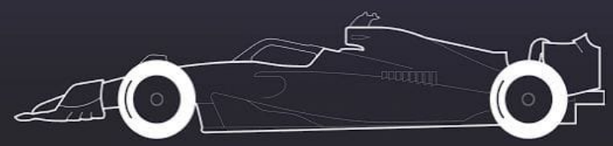
1920 x 1080 source pixels

AERODYNAMICS | TRANSMISSION | SUSPENSION GEOMETRY | SUSPENSION | BRAKES | TYRES LB RB

MODIFYING PRESET

Custom Setup

Front Right Tyre Pressure	22.7psi	22.5 - 29.5PSI
Front Left Tyre Pressure	22.7psi	22.5 - 29.5PSI
Rear Right Tyre Pressure	20.5psi	20.5 - 26.5PSI
Rear Left Tyre Pressure	20.5psi	20.5 - 26.5PSI



Softer tyres have a larger surface area meaning traction is improved at a cost to responsiveness in high load situations. An increase in tyre pressure can also reduce rolling resistance meaning a very slight improvement in straight line speed. Lower tyre pressure also contributes to higher tyre temperatures.

Race
AUTODROMO NAZIONALE MONZA

Track 41°C Air 27°C

Y SAVE/LOAD CAR SETUP B BACK

LAYOUT Six subsystem tabs run across the top, with Tyres filled red. Each row aligns the setting name, adjustment arrows, slider, current value and allowed range.

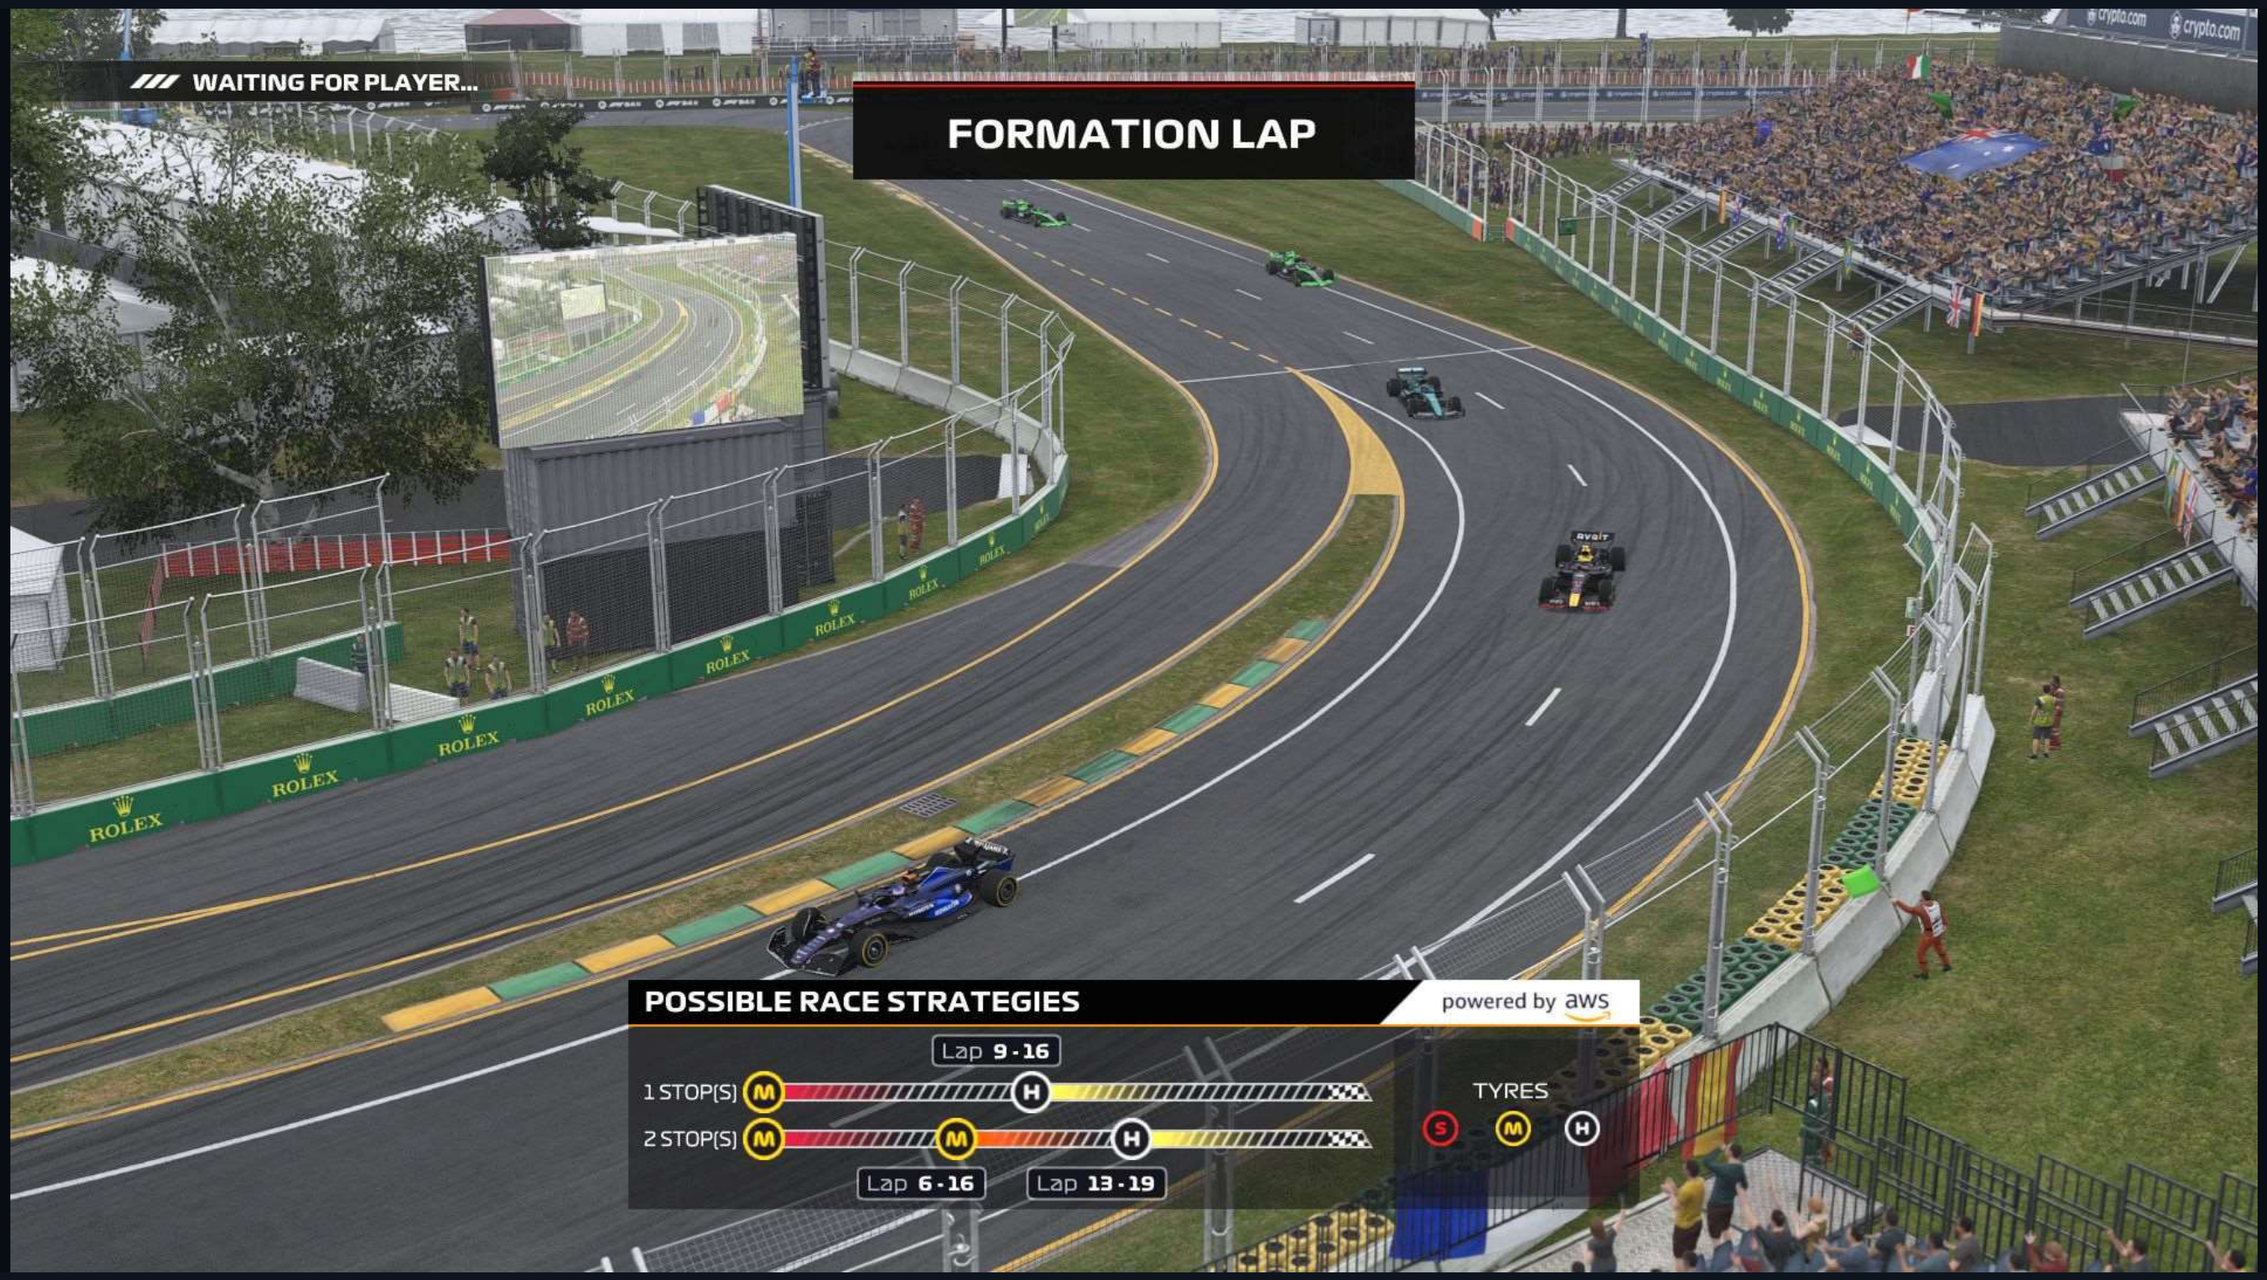
DETAIL The selected row becomes white. A separate right-hand panel combines a car diagram with explanatory text; track conditions and controller prompts sit below.

F1 24

Formation-lap strategy comparison

PUBLISHED CAPTURE

1920 x 1080 source pixels



LAYOUT Two horizontal stint timelines compare one-stop and two-stop strategies in a single bottom overlay.

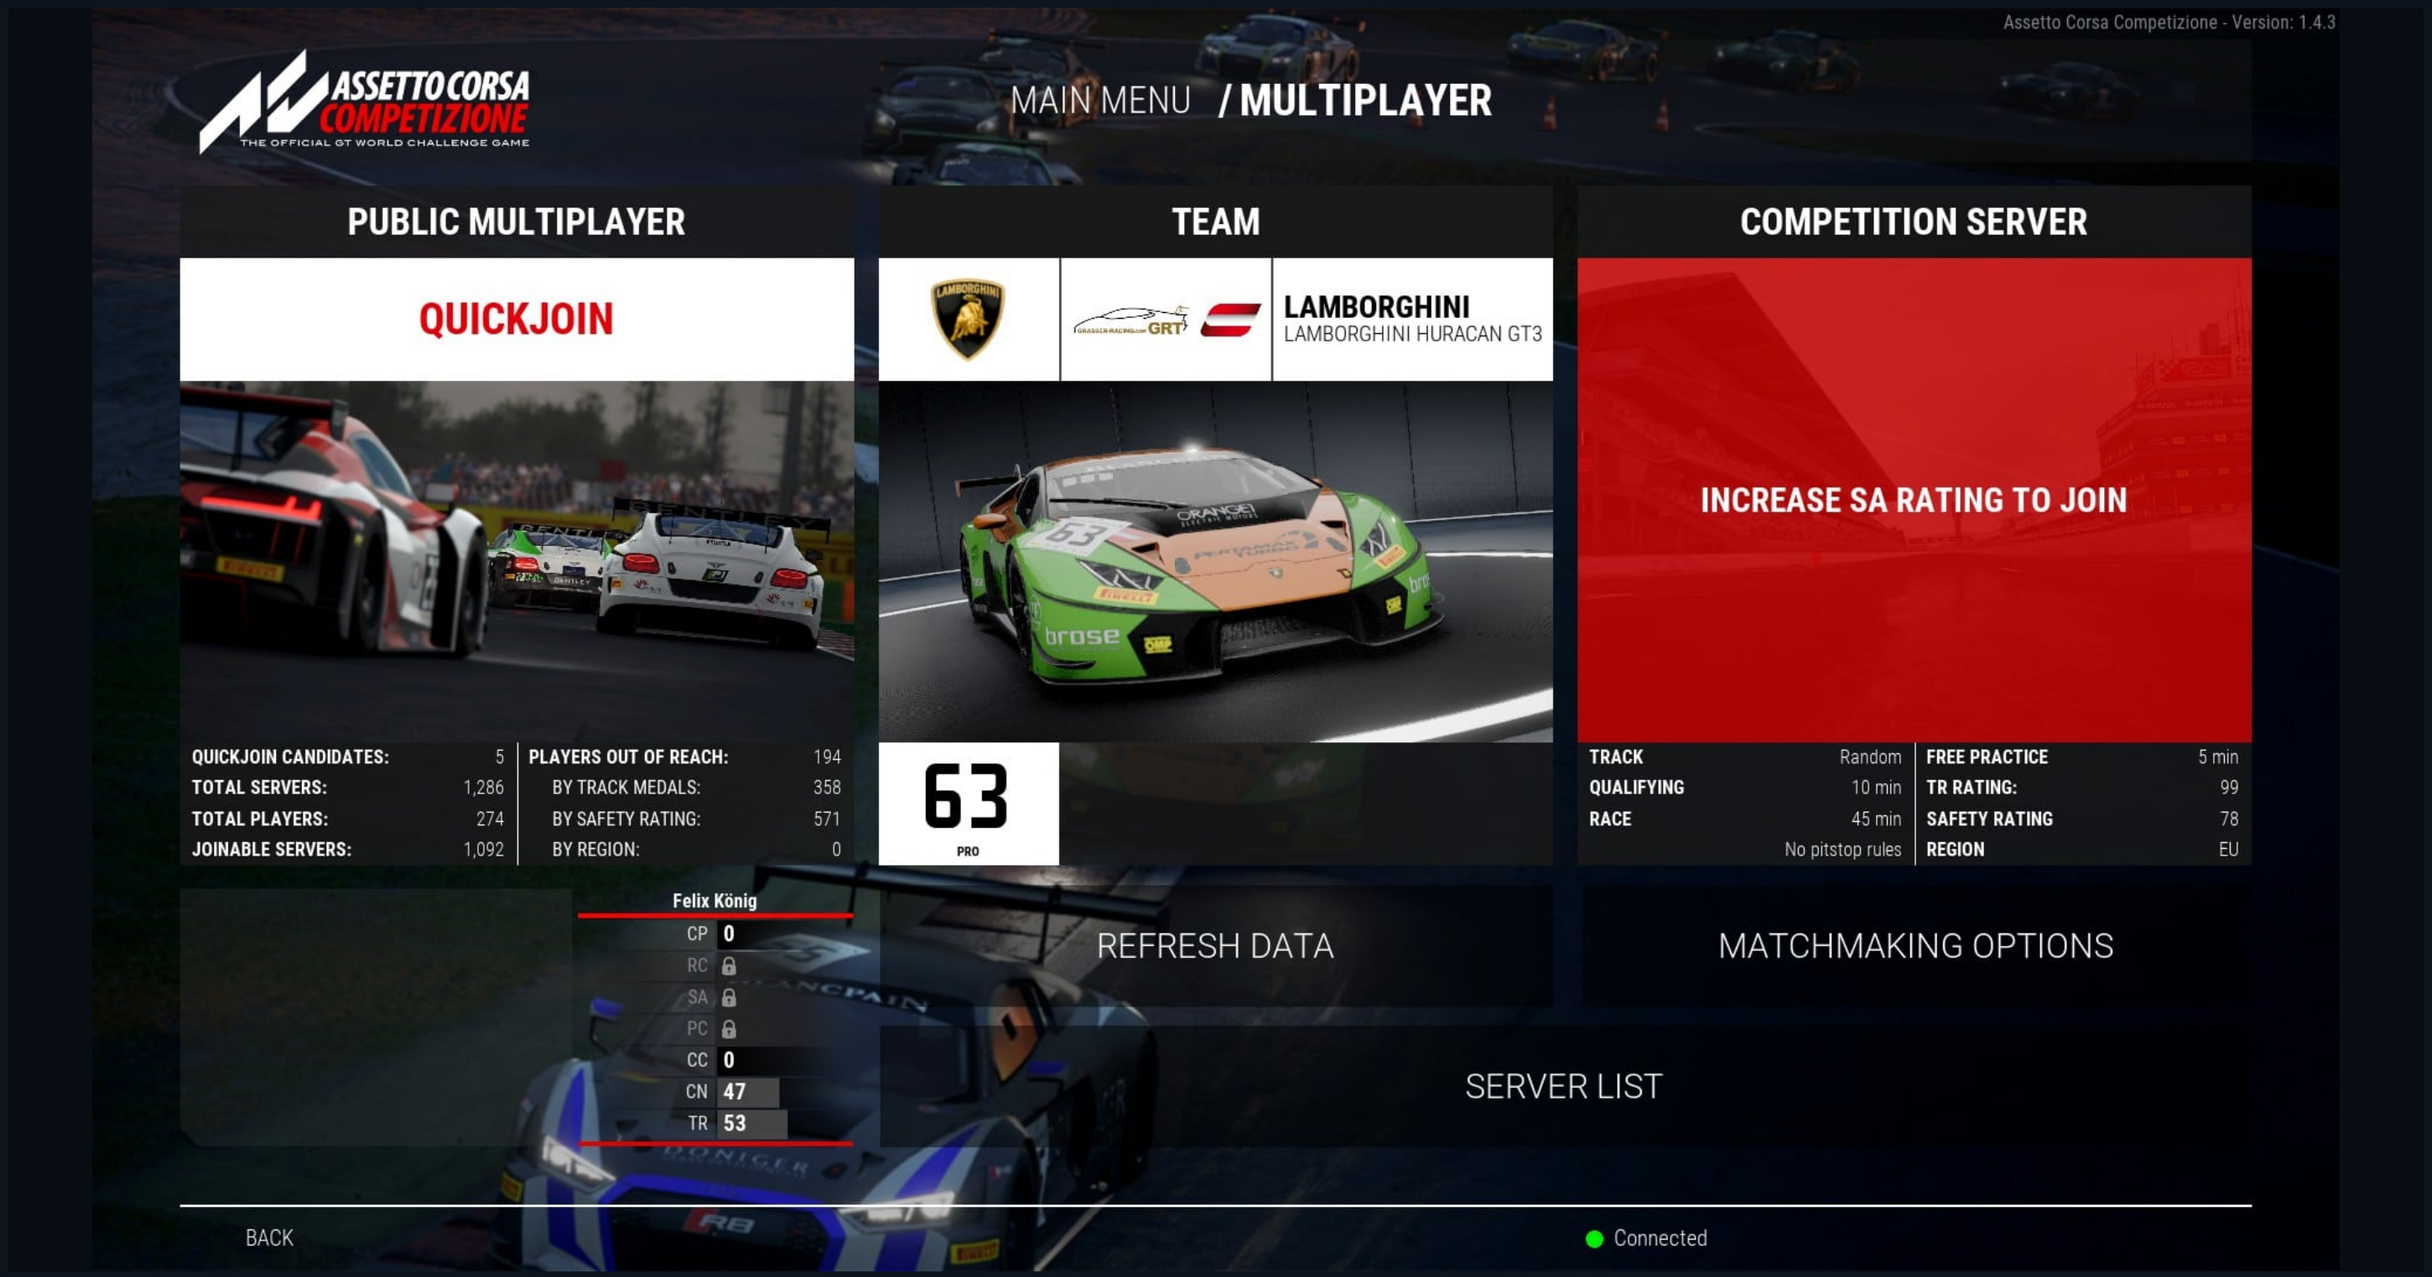
DETAIL Compound letters accompany colored tyre symbols, while labelled pit windows divide the bars. The formation-lap label occupies a separate top-center strip.

Assetto Corsa Competizione

Multiplayer hub

HISTORICAL PC UI

1920 x 1080 source pixels



LAYOUT Three large columns separate public matchmaking, the current team and the competition server.

DETAIL The unavailable competition option uses a solid red panel and a concise requirement message; server and rating details stay in compact rows below.

F1 24

F1 World play menu - Time Trial selected

PUBLISHED CAPTURE

1400 x 788 source pixels

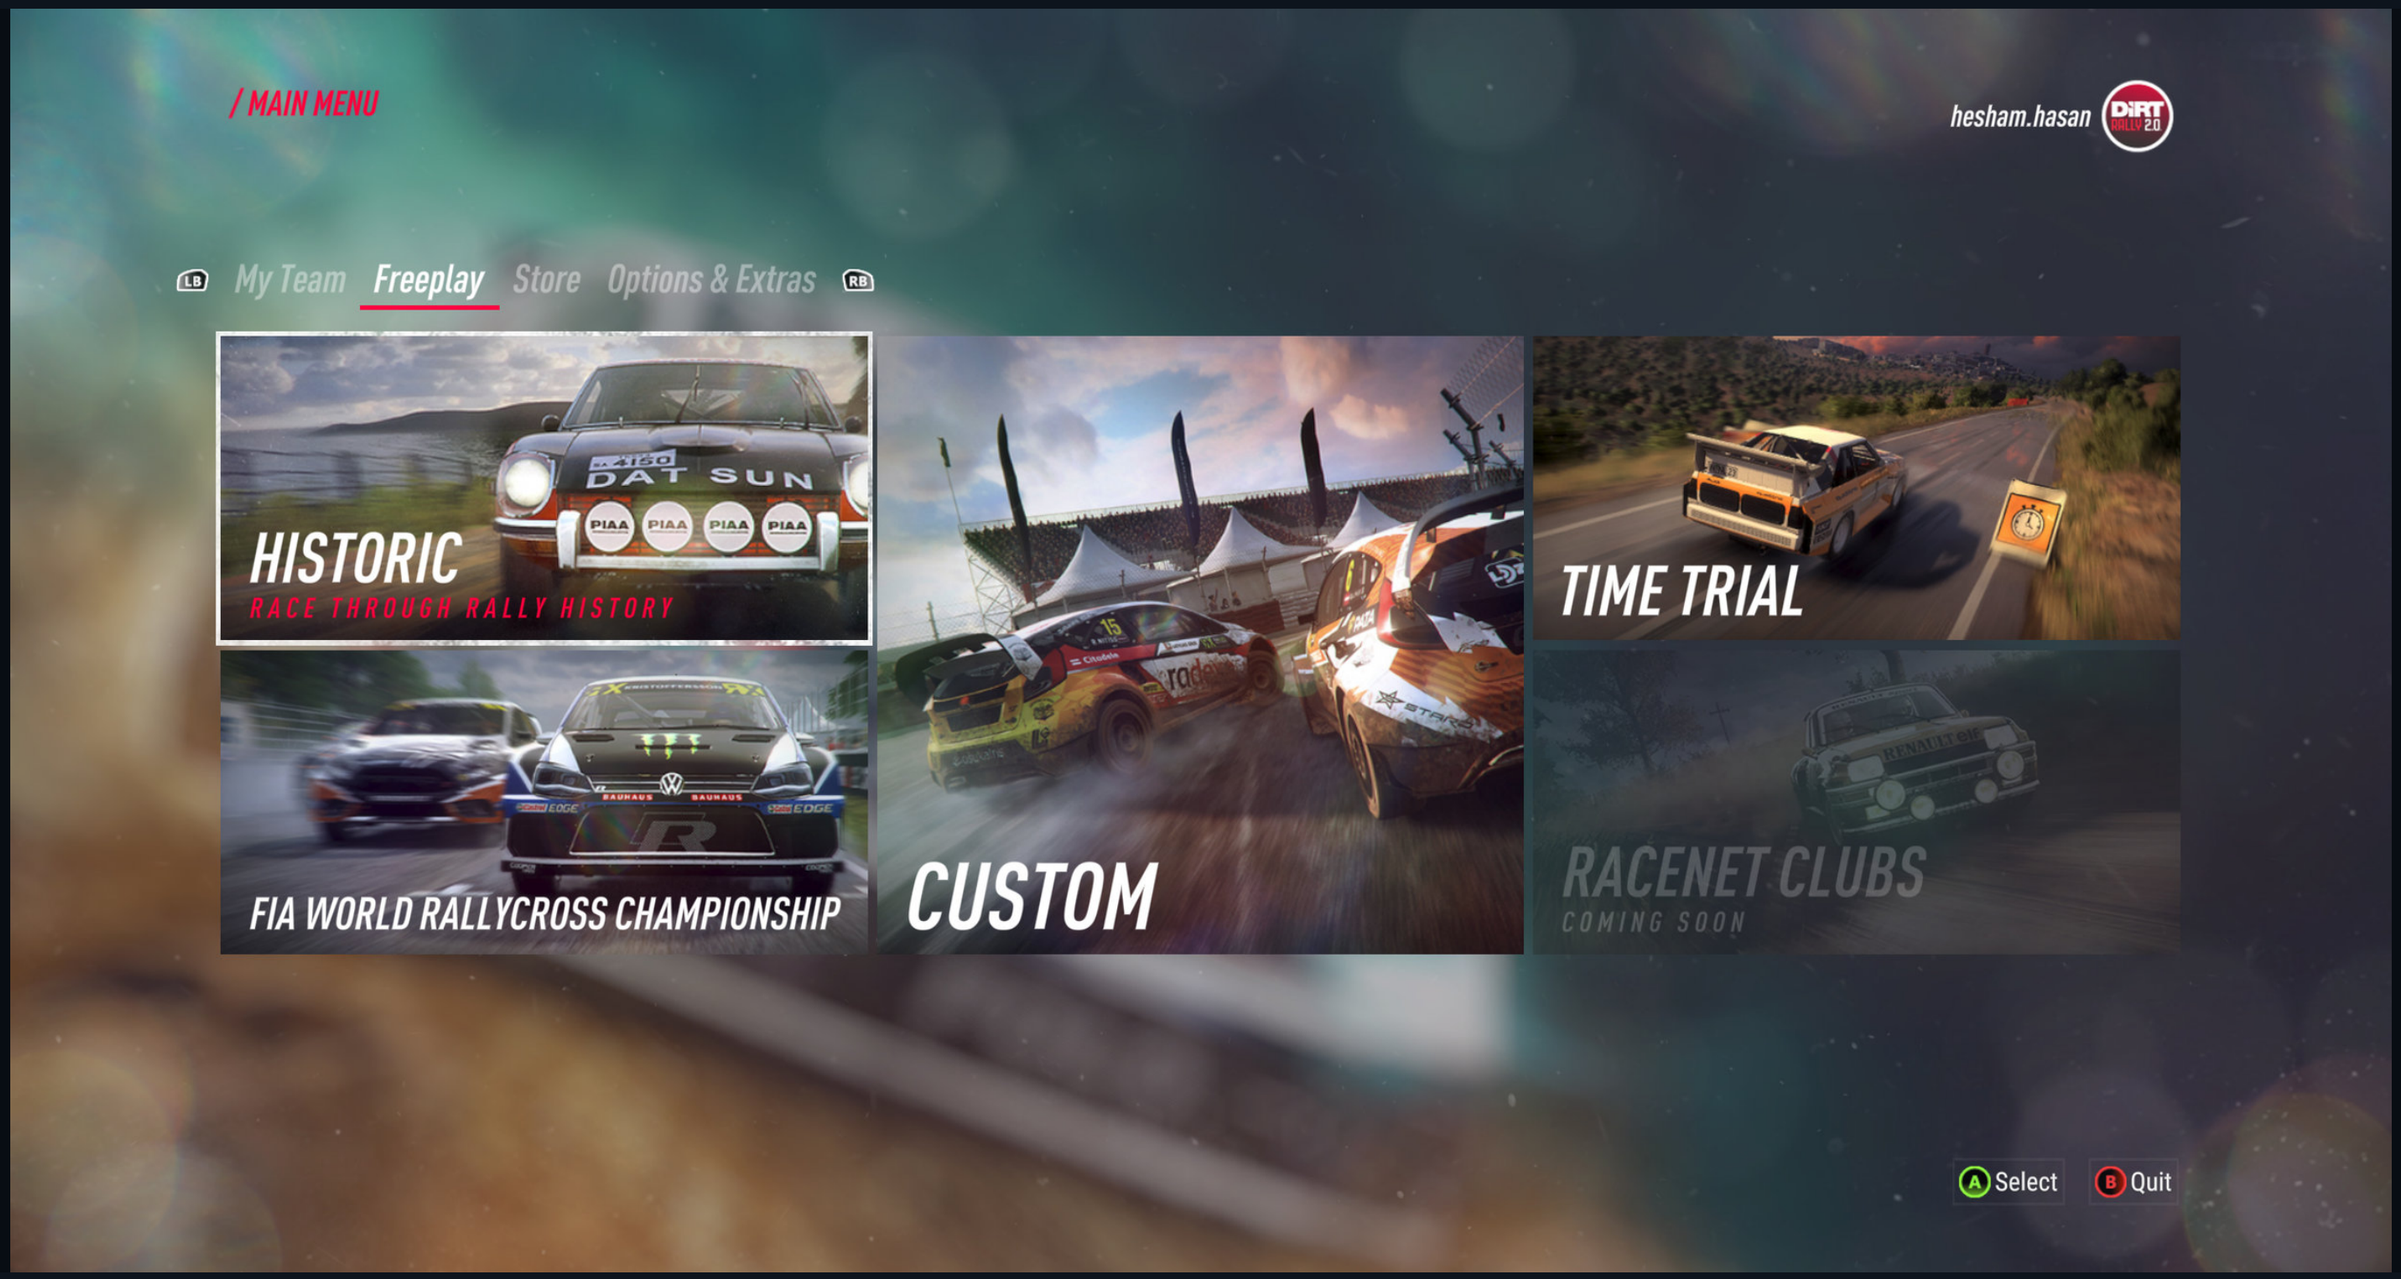
LAYOUT A horizontal row of dark icon tiles sits beneath a large title and explanatory copy. The selected Time Trial card has a white outline and a red underline beneath its title.

DETAIL Flag, people, stopwatch and screen icons distinguish the modes. The purple map backdrop and bottom-right control prompts remain separate from the tile row.

DiRT Rally 2.0

Freeplay mode menu

2500 x 1327 source pixels



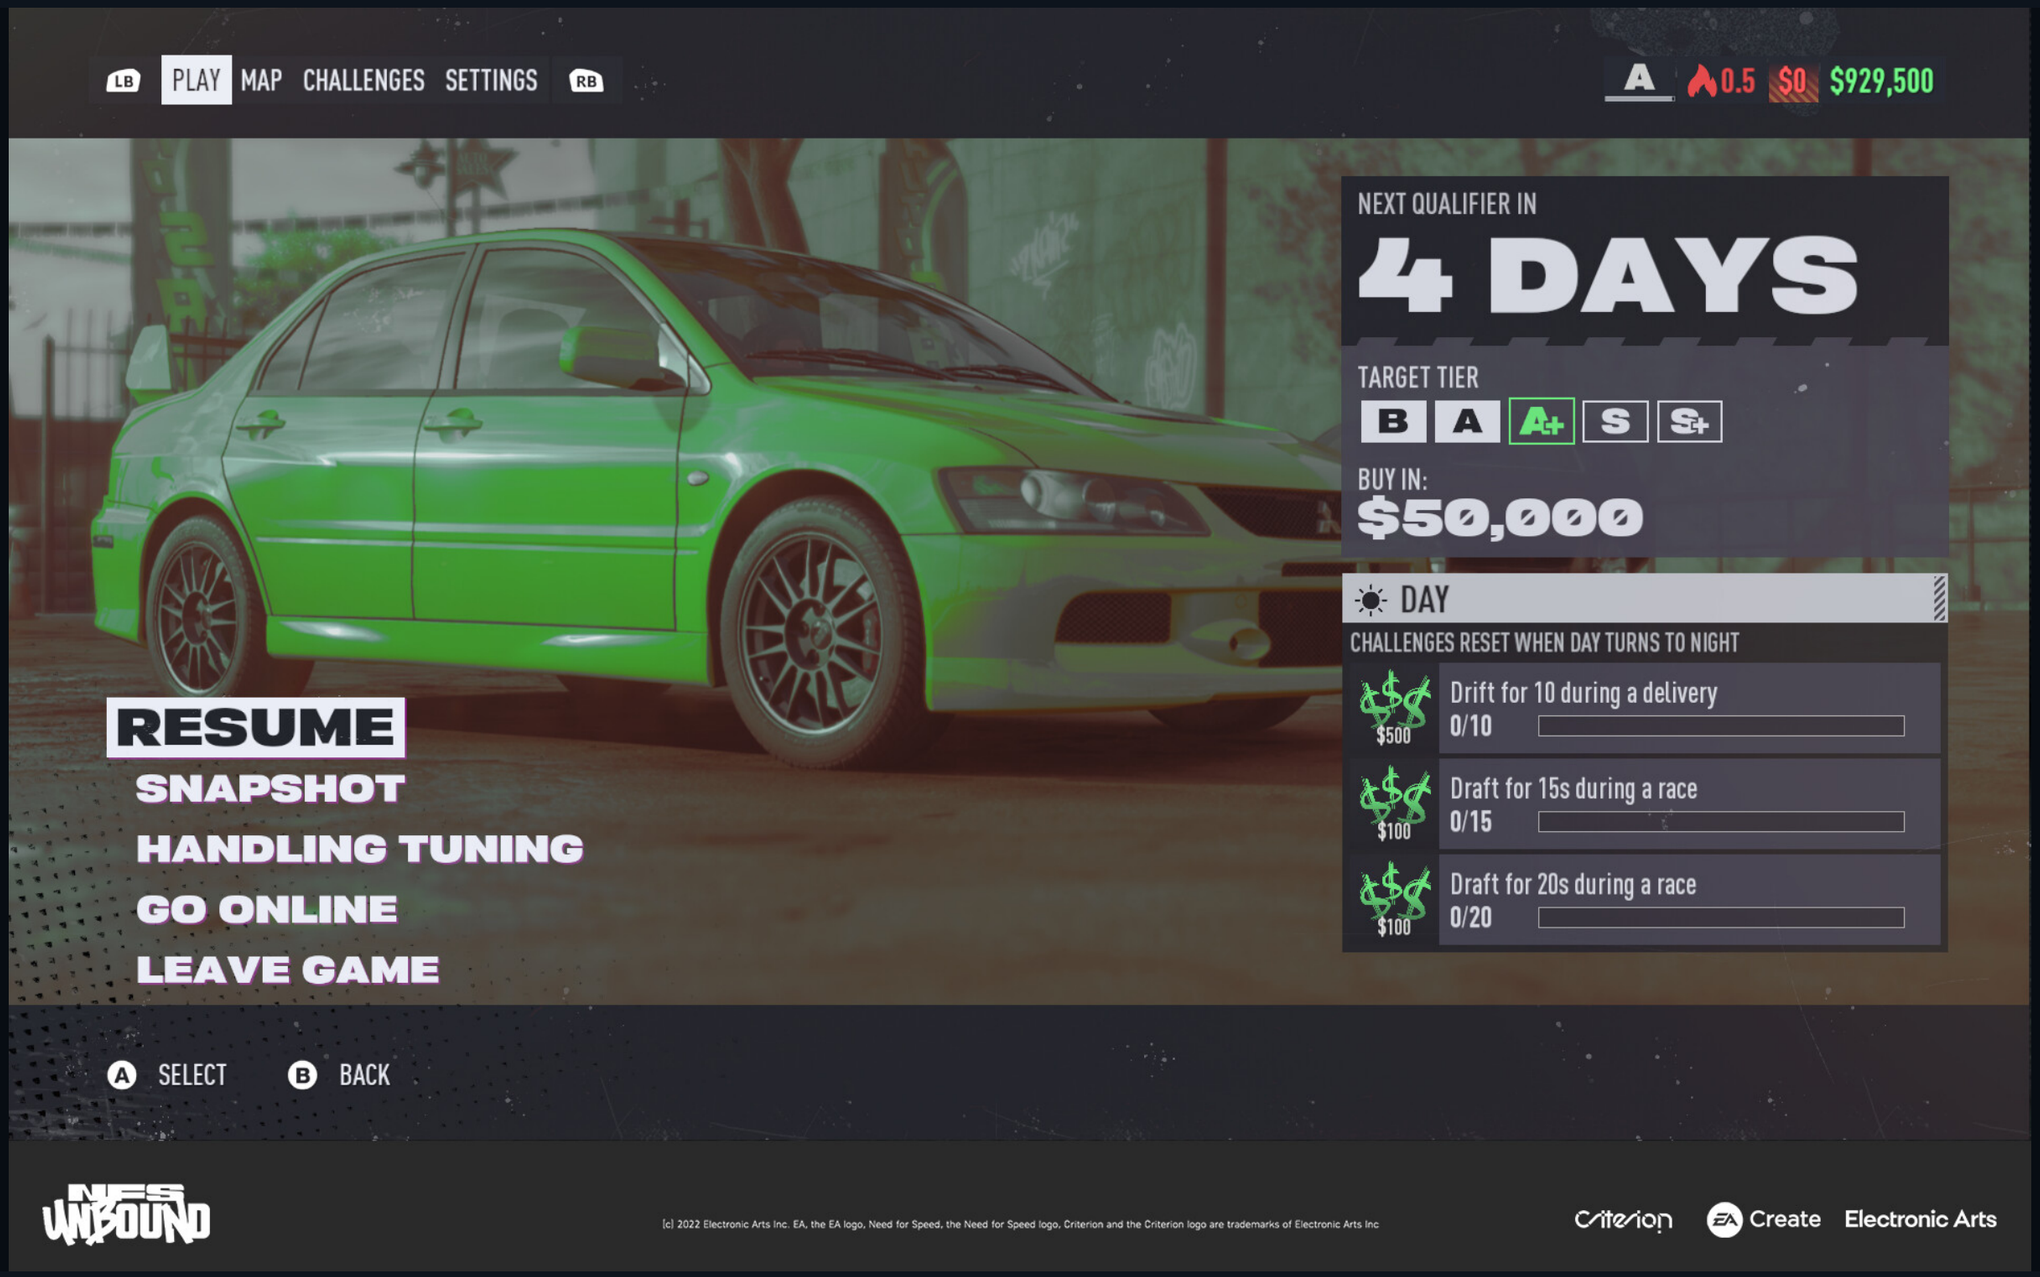
LAYOUT A compact top tab bar leads into an asymmetric grid of mode tiles. The center Custom tile is taller than its neighbors.

DETAIL The Historic selection uses a white border around the image tile; muted tiles and a blurred photographic background keep the grid dominant.

Need for Speed Unbound

Pause menu - actions and qualifier progress

1920 x 1200 source pixels



LAYOUT A left-side action list and right-side progress panel frame the car backdrop; a narrow top bar holds category tabs.

DETAIL The large 4 DAYS countdown leads the qualifier panel, followed by tier requirements, buy-in and smaller challenge bars.

Need for Speed Unbound

Calendar - day/night sessions and qualifier requirements

1920 x 1200 source pixels

LAYOUT A weekly grid pairs sun/moon rows with event tiles, crossed-out past days and a circled current Tuesday column.

DETAIL Oversized day typography sits behind the car, while the Saturday qualifier tile carries tier, buy-in and reward details.

Mario Kart 8 Deluxe

Time Trial actions - ghost racing

SOURCE ANNOTATIONS

1280 x 720 source pixels

LAYOUT Five large action rows sit over a pale track-map background. The selected row is yellow, while unselected rows are light grey.

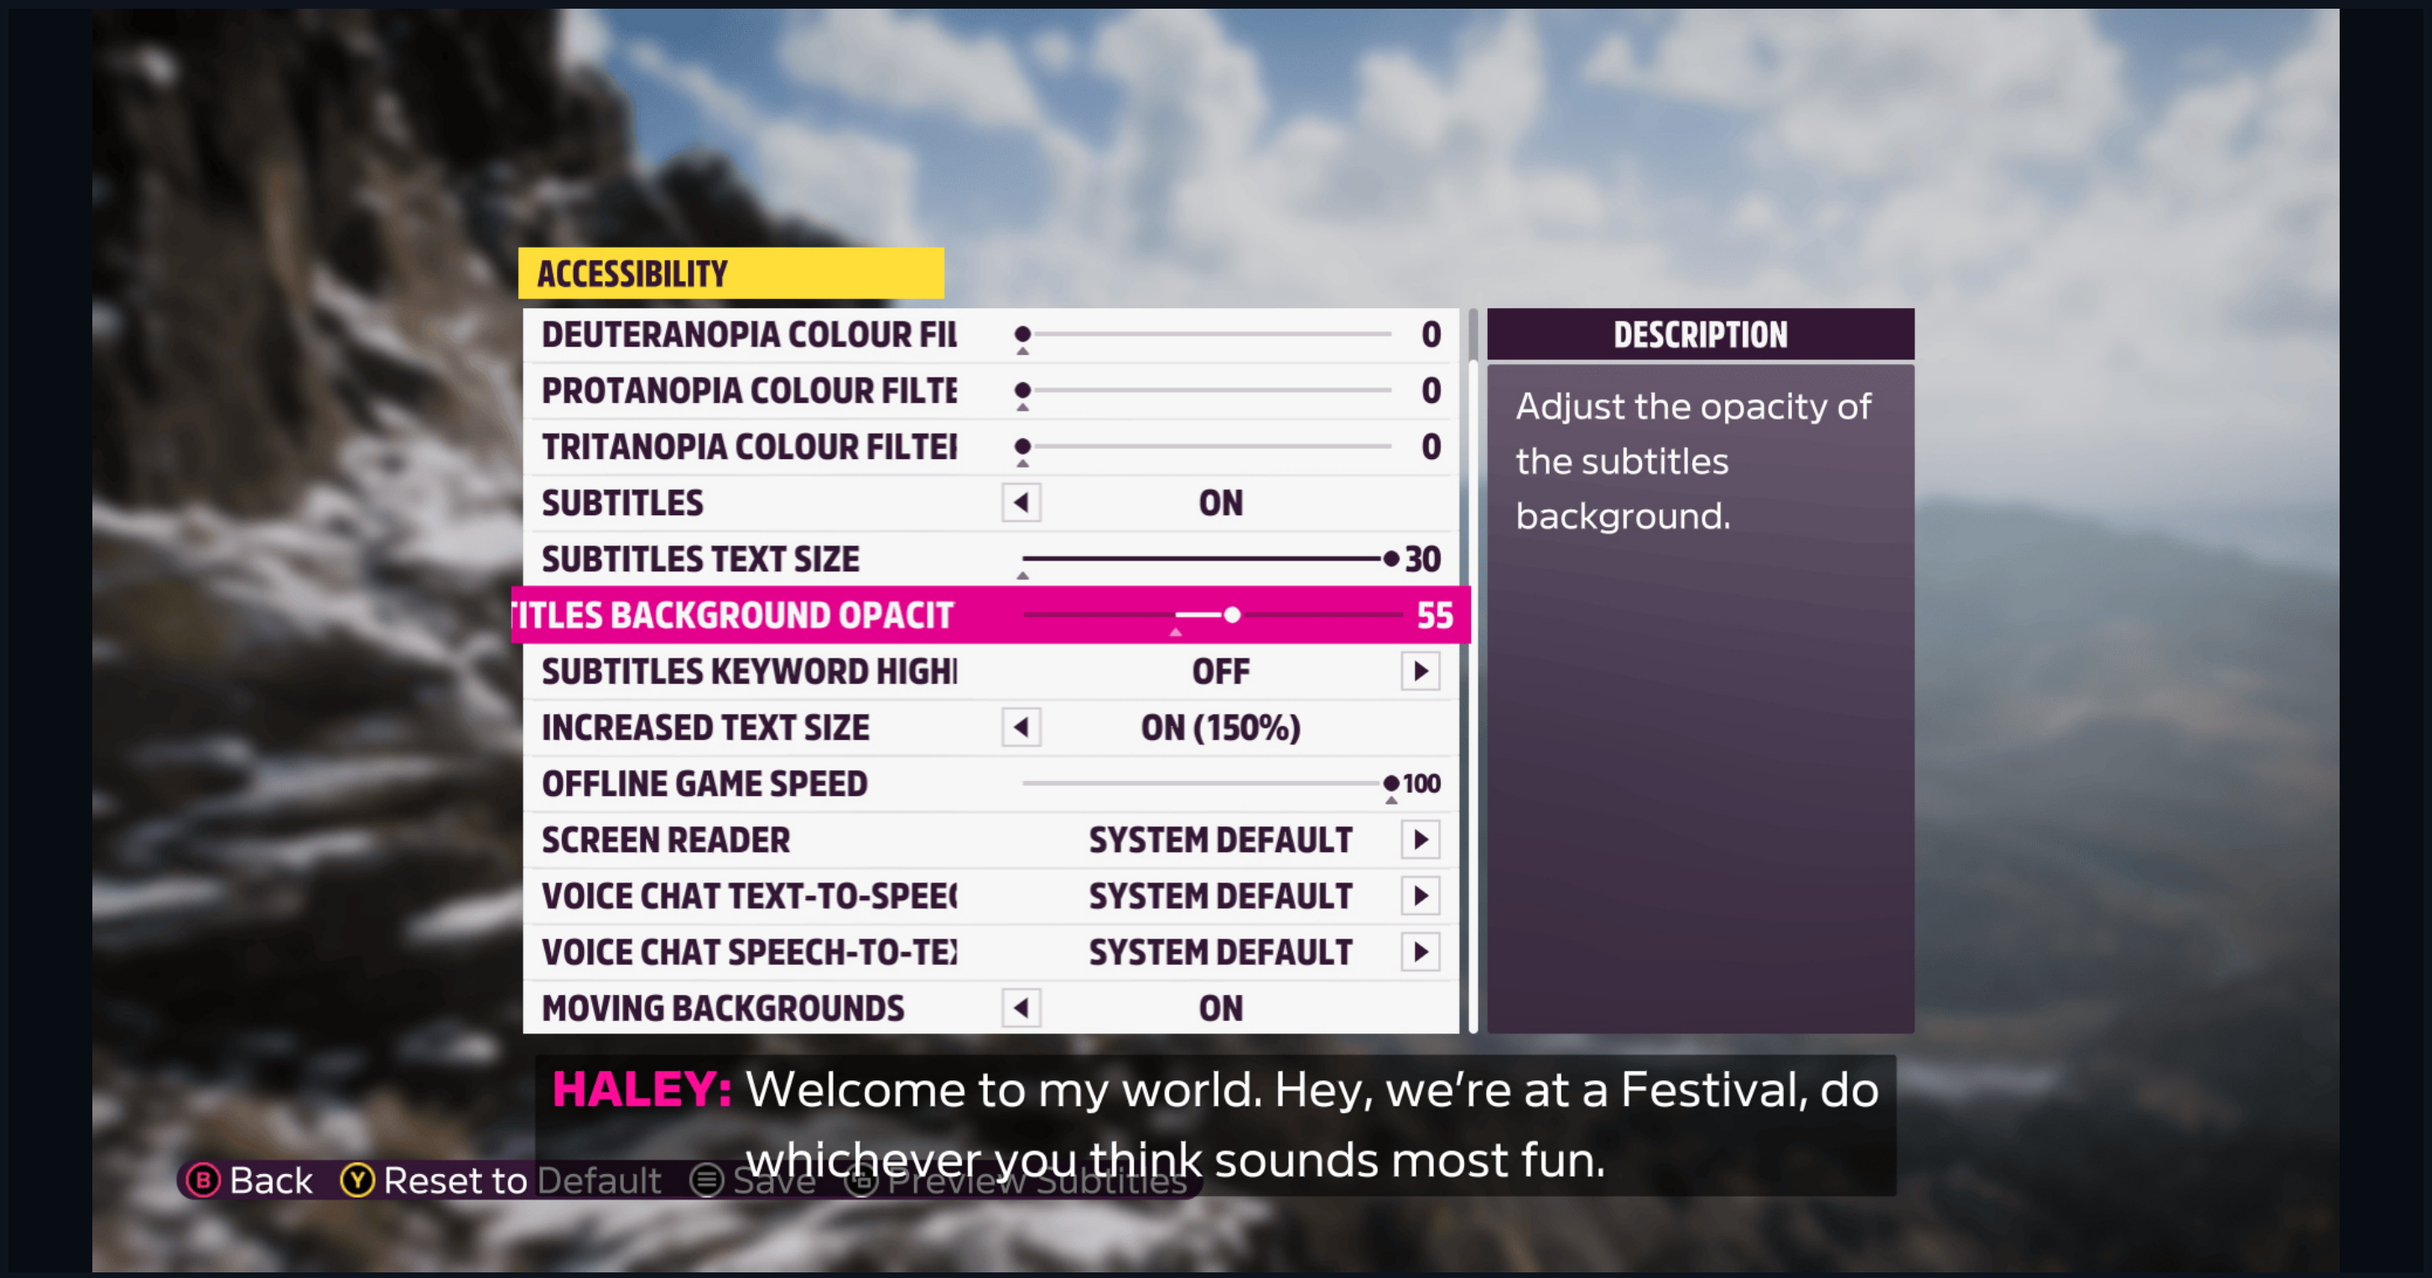
DETAIL The pink instruction, arrow and rectangle belong to the source guide. Study the underlying row spacing and footer navigation.

Forza Horizon 5

Accessibility settings - enlarged text and subtitle preview

PUBLISHED CAPTURE

1920 x 1080 source pixels



LAYOUT The selected subtitle-opacity slider appears beside a description panel and a subtitle preview.

DETAIL The 150% text setting is visible; several long labels clip inside their fixed-width rows at this size.

Forza Motorsport (2023)

Accessibility settings - subtitles and narration

PUBLISHED CAPTURE

3840 x 2160 source pixels

LAYOUT The selected row uses a dark fill and yellow outline. Toggles, sliders and numeric values share a consistent right-hand column.

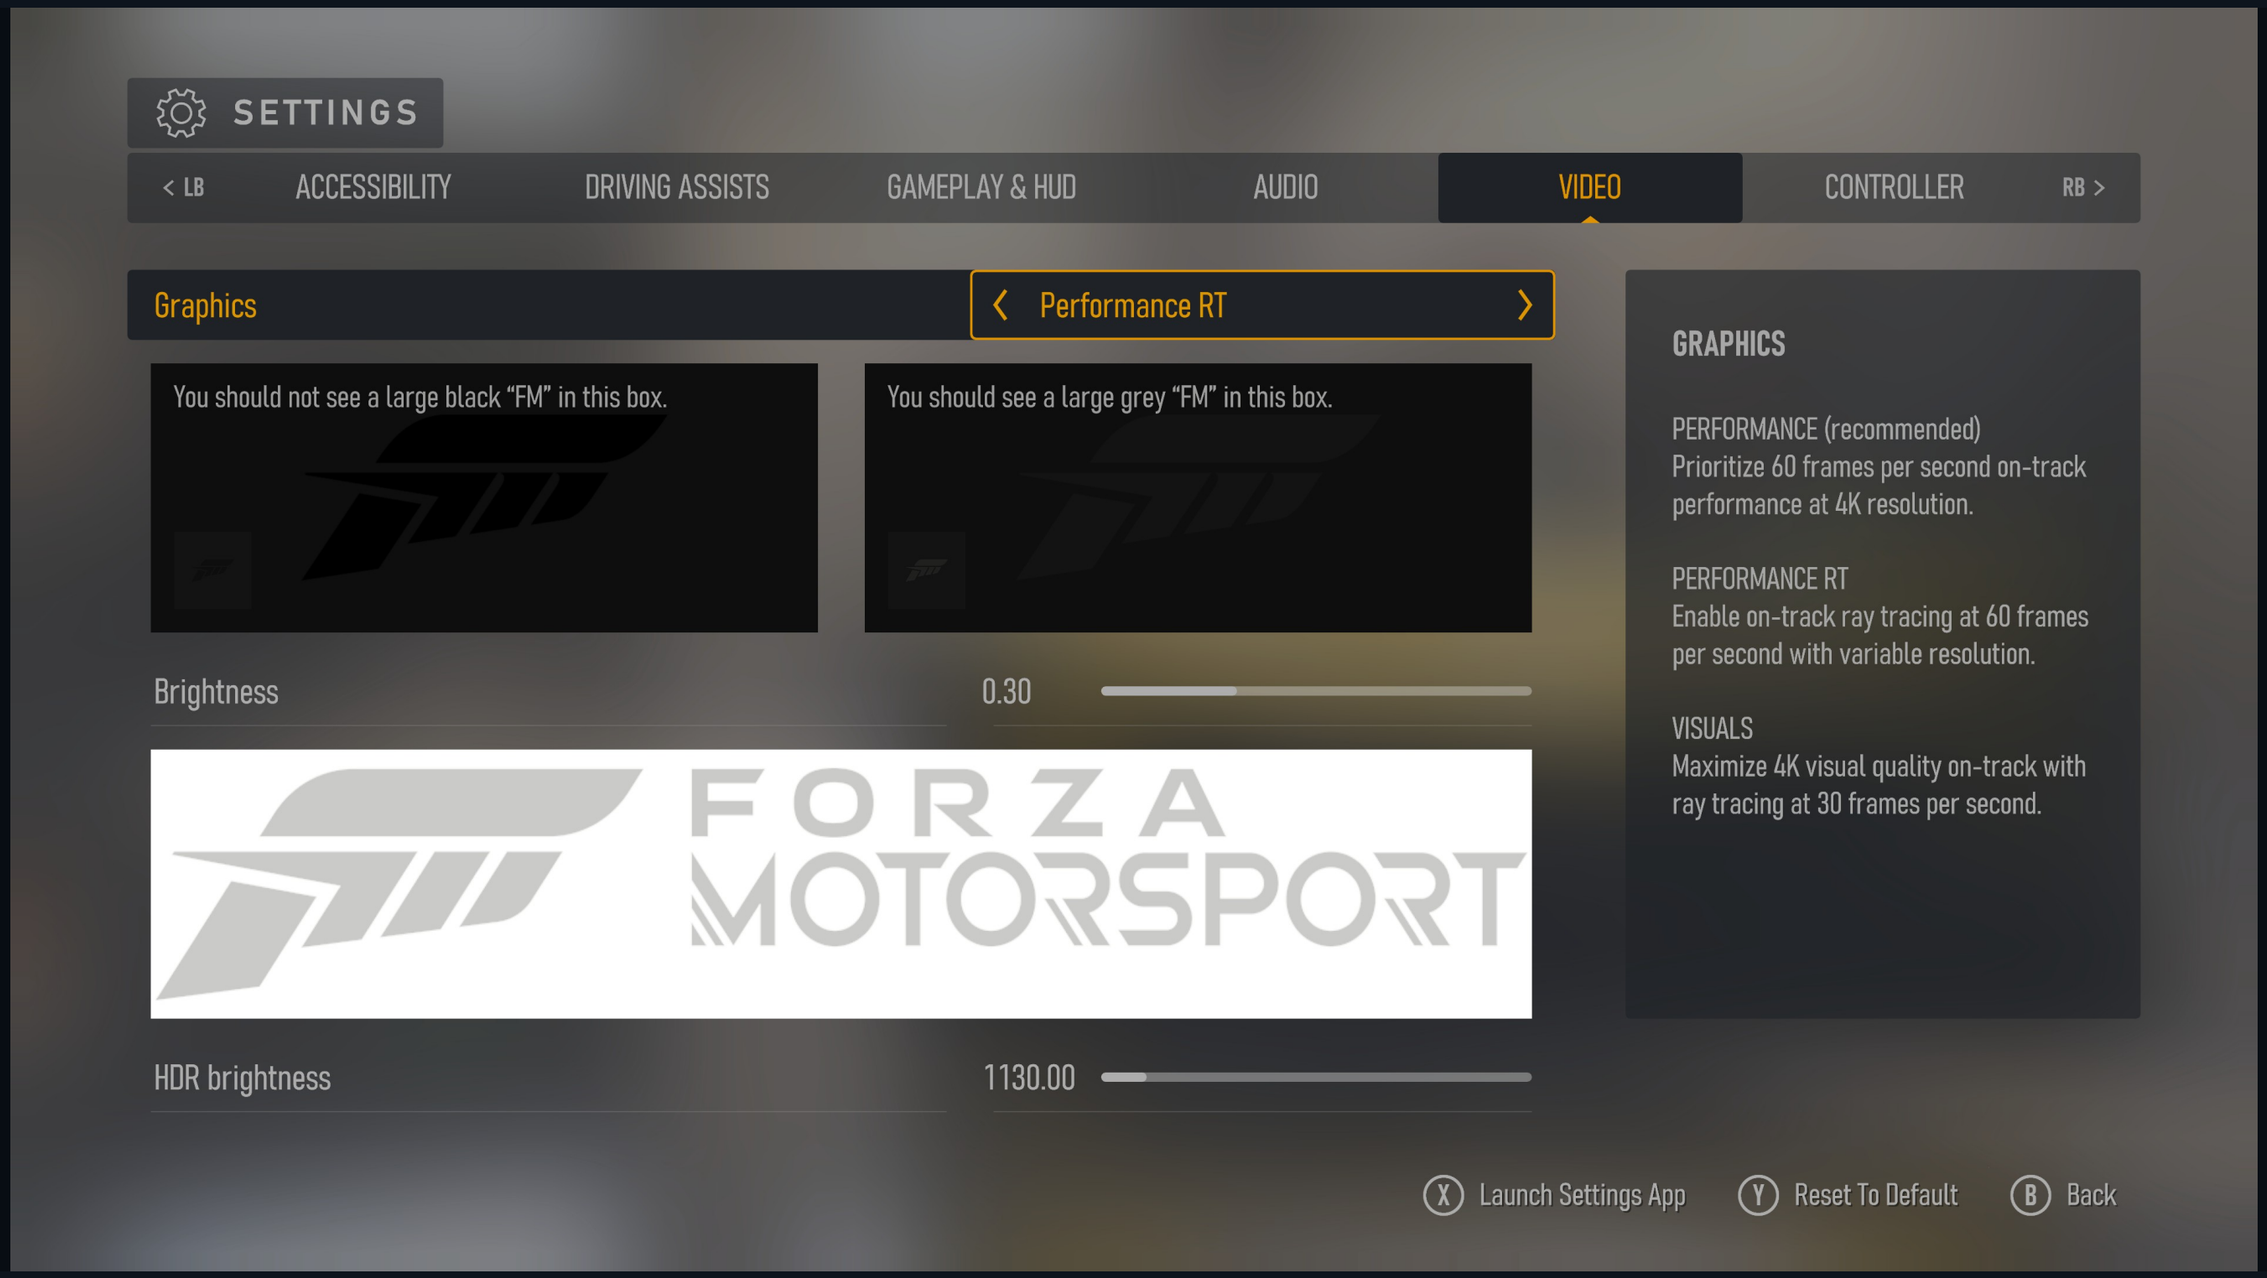
DETAIL Subtitles and Screen Narrator are separated by small headings; the explanatory panel stays to the right of the controls.

Forza Motorsport (2023)

Video settings - comparison previews

PUBLISHED CAPTURE

3840 x 2160 source pixels



LAYOUT Graphics mode, SDR brightness and HDR brightness occupy a single panel. Two dark preview boxes and a bright logo test image provide context.

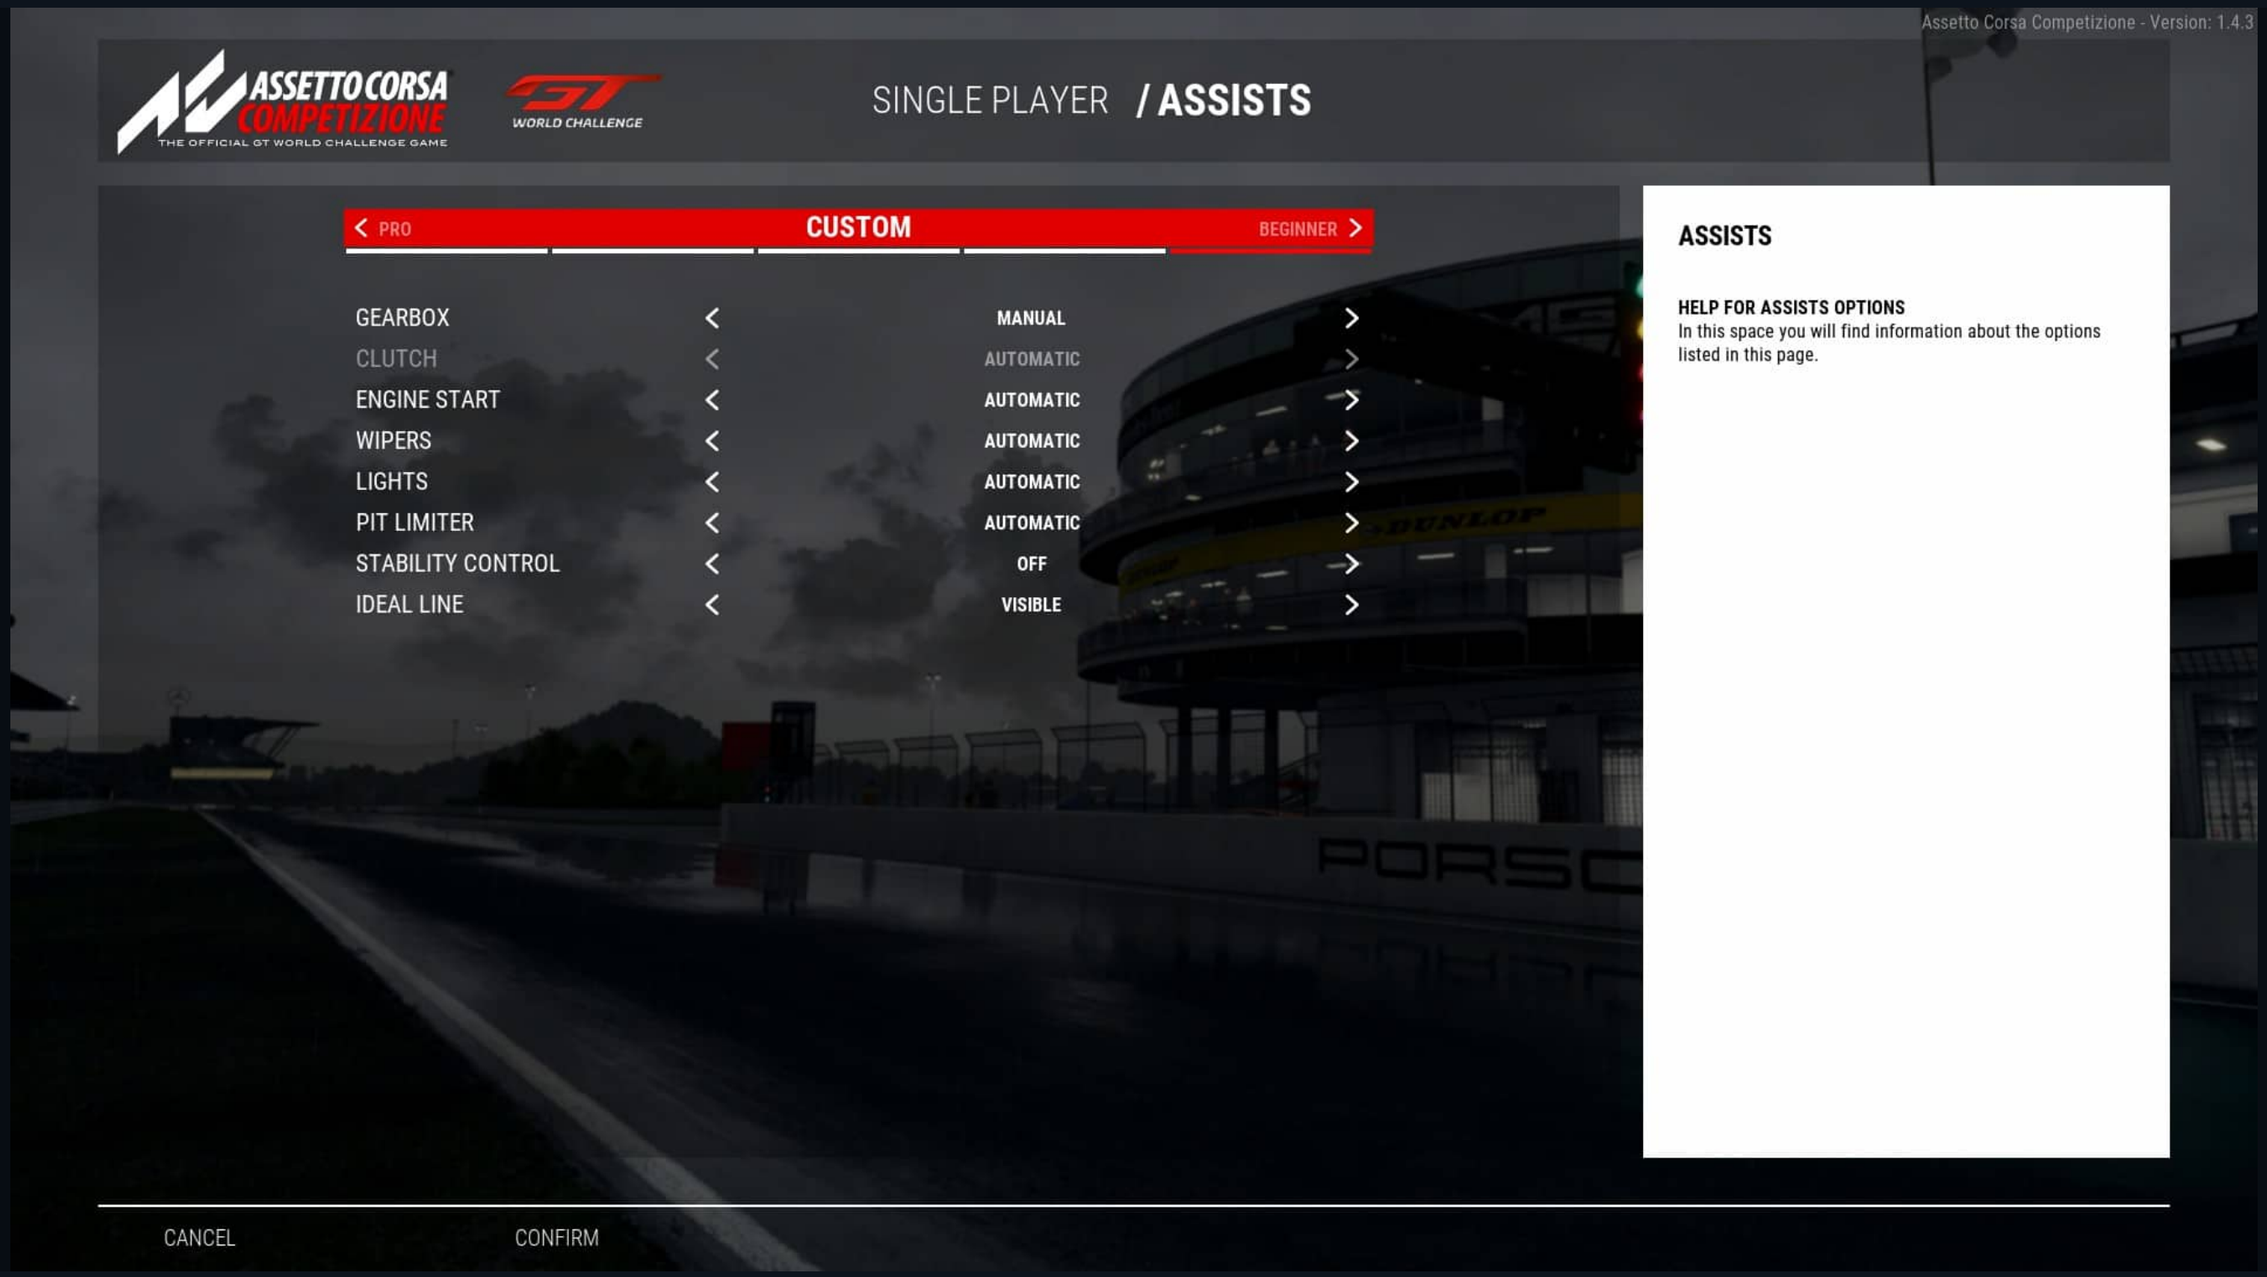
DETAIL The selected value is bordered in yellow; descriptions sit in a separate right column, with launch-settings, reset and back prompts along the footer.

Assetto Corsa Competizione

Driving assists settings

HISTORICAL PC UI

1920 x 1080 source pixels



LAYOUT The short option list aligns labels, values and paired arrows into predictable columns over a darkened track background.

DETAIL A bright right-side help pane offers a consistent place for explanations, while the red preset bar separates broad choices from individual settings.

DiRT Rally 2.0

Preferences - field-of-view setting

2500 x 1327 source pixels

LAYOUT Assists, Preferences and OSD Settings share a top tab strip. Sliders, values and toggles align consistently across a dense left-hand list.

DETAIL A full-width white selected row contrasts with the dark panel. Explanatory copy occupies a separate right column, with Apply below the list.

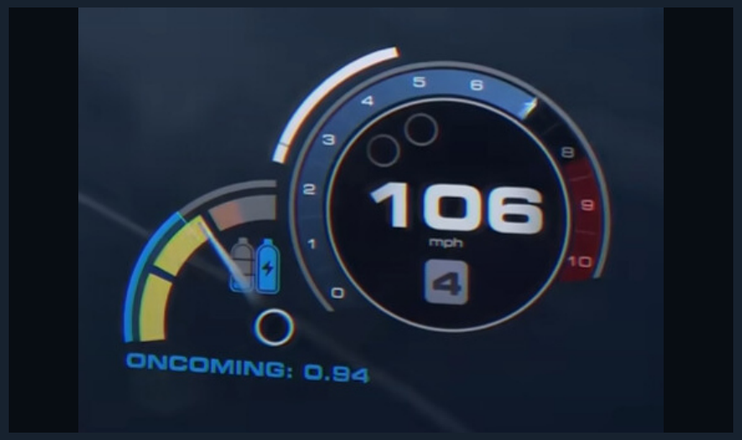
Compare the instruments

Detail crops from the full references. Each crop is scaled independently; compare visual hierarchy, not physical screen size.

Speed + gear + rev arc

Large speed digits sit below the gear, beside a thin rev arc.

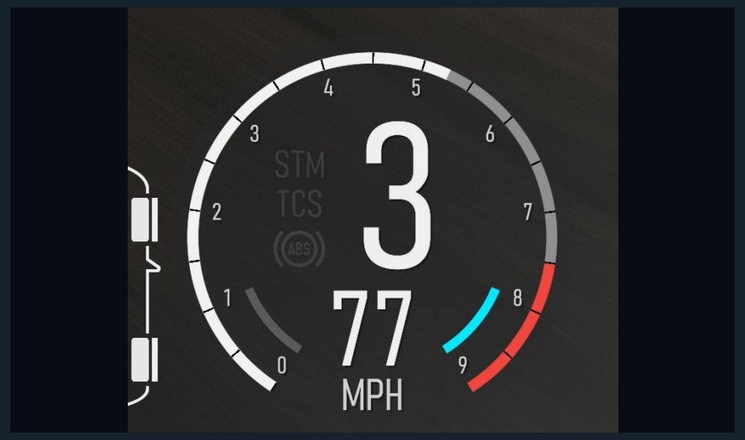
R01 / Forza Horizon 5 / p.3



Speed + revs + boost

Nested arcs gather several driving values into one corner.

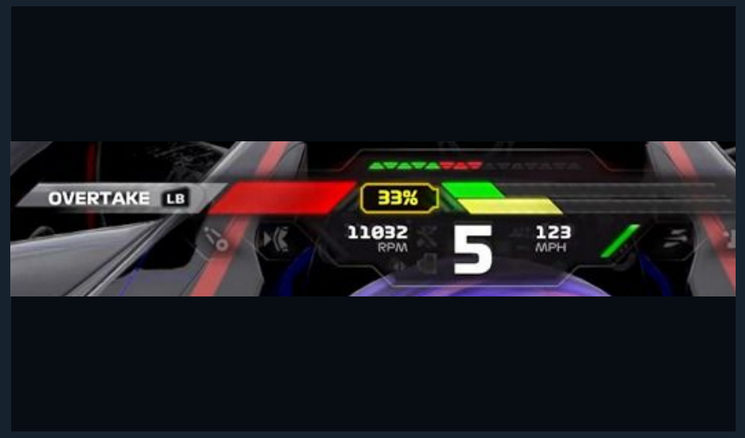
R09 / Need for Speed Unbound / p.11



Gear-first instrument

A large central gear numeral sits above a smaller speed value.

R02 / Forza Motorsport (2023) / p.4



Gear + ERS / overtake

A horizontal energy strip sits above the central gear readout.

R06 / F1 24 / p.8

Speed + gear + rev counter

A bright arc surrounds two distinct large numeric readouts.

R07 / DiRT Rally 2.0 / p.9

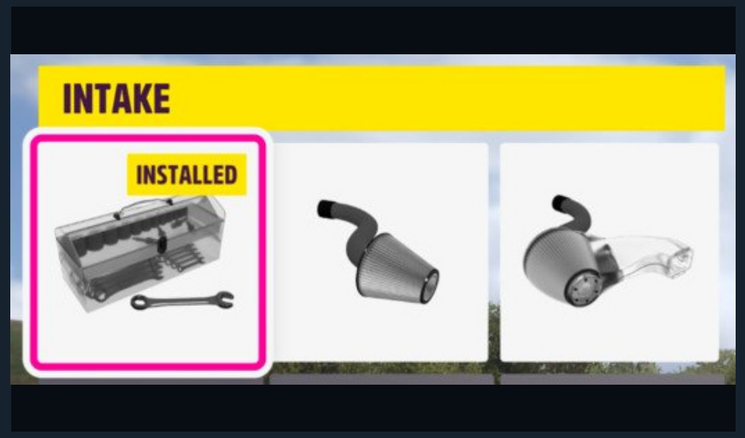
Speed, gear and rev strip

Digital speed and gear share a central strip beneath segmented rev marks.

R04 / Gran Turismo 7 / p.6

Compare the selection states

Detail crops from the full references. Each crop is scaled independently; compare visual hierarchy, not physical screen size.



Selected and installed parts

Magenta focus and an installed label express different states.

R17 / Forza Horizon 5 / p.19

Selected slider row

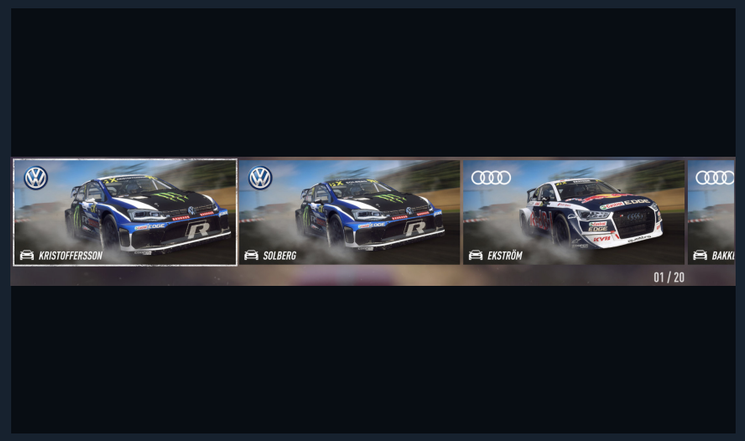
A solid accent bar gives one control priority over its neighbors.

R18 / Forza Horizon 5 / p.20

Tyre controls and active row

Sliders, numbers, units and bounds form aligned columns.

R21 / F1 24 / p.23



Car-card carousel

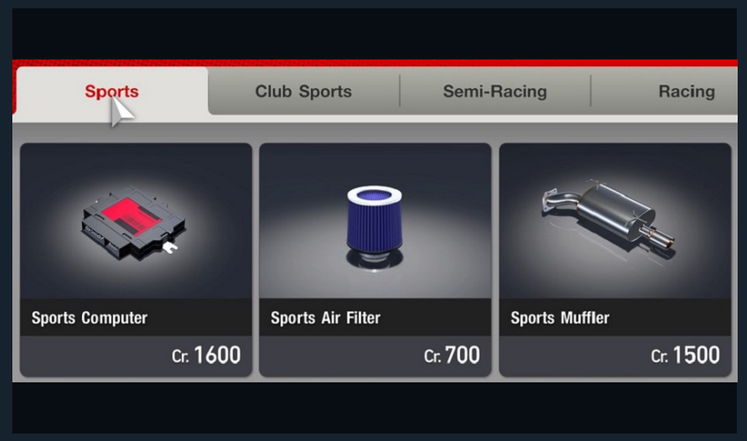
A white border marks the active card; partial cards suggest more.

R13 / DiRT Rally 2.0 / p.15

Three part selectors

A yellow outline gives one pictured component a clear focus.

R16 / Mario Kart 8 Deluxe / p.18



Tier tabs and part cards

Repeated image, name and price positions make a catalog scannable.

R19 / Gran Turismo 7 / p.21
